Death Guard

The Death Guard, one of the original Traitor Legions who turned against the Emperor in the Horus Heresy, are favoured by Nurgle over all others in his service. Led by the Daemon Primarch Mortarion, their fleets launch from the Plague Planet to ravage the worlds of the Imperium.

INTRODUCTION

Below you will find several **DEATH GUARD** Detachments you can select from to use in games of Warhammer 40,000, as described in the Core Rules (see the Select Detachment Rules step). If you are playing a Crusade battle, see the equivalent step in the Mustering a Crusade Army section of the main Crusade rules. Each Detachment is a themed fighting force that focuses on one particular combat style employed by the Death Guard - the rules they include are as follows:

1 DETACHMENT RULE

The Detachment rule listed here will apply to either your whole army or to particular units within it. If any additional restrictions or benefits apply to a Detachment, they will be listed here. This can include units your army either must include or cannot include, as well as additional keywords some of your units may gain.

2 ENHANCEMENTS

When mustering your army, your chosen Detachment enables you to upgrade **CHARACTERS** using the Enhancements listed here, as described in the Core Rules (see the Select Units step). If you are playing a Crusade battle, you can instead use the Renowned Heroes Requisition to give your **CHARACTERS** Enhancements, as described in the main Crusade rules.

3 STRATAGEMS

Your chosen Detachment gives you access to the Stratagems listed here in addition to the Core Stratagems listed in the Core Rules. During the battle, you can spend Command points (CP) to use these Stratagems. You can find out more about how to use Stratagems **here**.

ARMY RULES

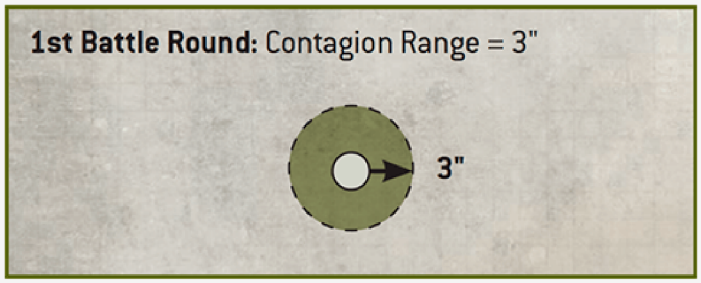

NURGLE'S GIFT (AURA)

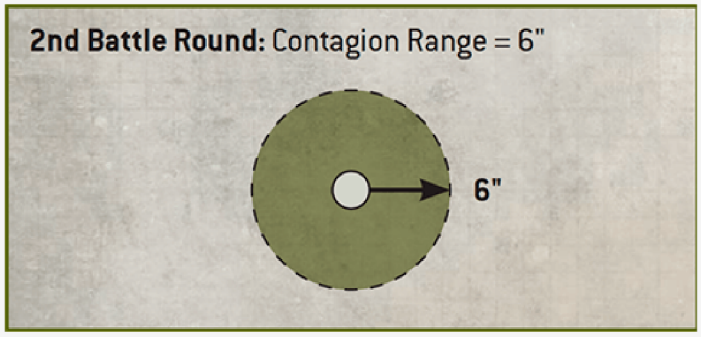

The Death Guard are warriors of the Plague God Nurgle. Their bloated bodies are riddled with corruption, and their mere presence causes the foe to sicken and wither in the grip of supernatural diseases while the battlefield falls to rot and ruin around them.

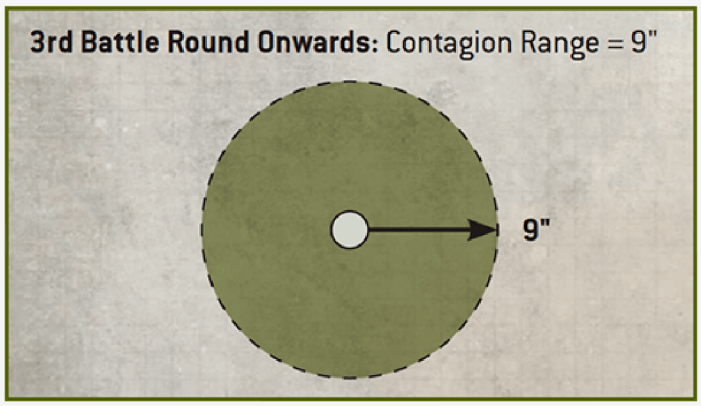

If your Army Faction is **DEATH GUARD**, while an enemy unit is within Contagion Range of one or more **DEATH GUARD** models from your army, it is Afflicted (see below).

CONTAGION RANGE

Contagion Range changes over the course of the battle:

Contagion Range cannot be greater than 12" after modifiers.

AFFLICTED

During the Declare Battle Formations step, select one of the Plagues below. Until the end of the battle, while an enemy unit is Afflicted, subtract 1 from the Toughness characteristic of models in that unit, and that unit has the effect of your chosen Plague.

Skullsquirm Blight

This horrifying affliction sees the minds and senses of the victim gnawed gradually away from within.

- Each time a model in this unit makes a ranged attack, enemy units have the **benefit of cover** against that attack.
- Each time a model in this unit makes a melee attack, subtract 1 from the **Hit roll**.

Rattlejoint Ague

Limbs shuddering with fever palsy, bones turned brittle as glass, these warriors can barely act to defend themselves.

Worsen the Save characteristic of models in this unit by 1.

Scabrous Soulrot

Victims of this insidious ailment become glassy eyed and morose as their very animus and essence decay.

Worsen the Move, Leadership, and Objective Control characteristics of models in this unit by 1 (this rule can only worsen a model's Objective Control characteristic to a minimum of 1).

FAQ / ERRATA

Show

PACT OF DECAY

The daemons of Nurgle are not native to realspace, but instead must be summoned through the rotting veil by way of generous sacrifice and acts of foul worship.

When mustering your army, unless specifically stated otherwise, you cannot select PLAGUE LEGIONS as your Army Faction.

VIRULENT VECTORIUM

3DP

Many Death Guard vectoriums boast a mix of heavy infantry, armoured might and twisted champions of supernatural disease. Led by a mighty Lord of the Legion - or sometimes even a thrice-favoured Daemon Prince - such warbands accumulate the favour of the Plague God with every repulsive feat of conquest. Their festering star rises as they do, and the diseases that sing through their bloated bodies wax fat with power. Their weaponised maladies roll before them like a rancid flood, surging through the enemy ranks to leave the mightiest warriors shuddering and sweating as buboes erupt from their flesh. Even the battlefield itself sickens at the touch of such corrupt beings: greenery rots and runs into lakes of bubbling slime, mud churns with pus-moist larvae as long as a Human arm, ruins fur with mould and begin to crumble, while vehicle wrecks rust and the bodies of the fallen bloat and burst to spray infectious filth. Amidst such riotous putrefaction, the warriors of the Death Guard drone their praises to Nurgle and fight all the harder.

DETACHMENT RULE

WORLDBLIGHT

As the foul tendrils of the Death Guard quest further across the battlefield, they infest even the most secure, holy and heavily warded sites with supernatural disease. To fight amidst such foulness is a virtual death sentence to the foe, win or lose.

At the end of your Command phase, if a friendly DEATH GUARD unit is controlling an **objective**, that objective is **secured**. Until you lose control of that objective, while an enemy unit is within range of that objective, that enemy unit is **Afflicted**.

ENHANCEMENTS

DAEMON WEAPON OF NURGLE ..... 10 PTS

Be it the Seeping Blade, the Talon of Befoulment or even the dreaded Axe of Putrescence, this weapon contains a malevolent daemonic entity whose mere touch rots and sickens the foe.

DEATH GUARD model only. Each time the bearer makes a melee attack, an unmodified **Hit roll** of 5+ scores a Critical Hit.

FURNACE OF PLAGUES ..... 25 PTS

This champion's body blazes with fever as a cornucopia of supernatural diseases churn and roil within. Mere proximity to them is enough to trigger an infectious outbreak of daemonic viruses.

DEATH GUARD model only. Add 1 to the Strength and Attacks characteristics of the bearers melee weapons, and the bearer's melee weapons have the **[DEVASTATING WOUNDS]** ability.

ARCH CONTAMINATOR ..... 25 PTS

The unfettered energies of Nurgle's realm gush from the Warp like foulness from a punctured boil, earthing themselves in the fabric of realspace through this champions repulsive body.

DEATH GUARD model only. While the bearer's unit is within range of an objective marker you control, each time a model in the bearer's unit makes an attack, you can re-roll the **Wound roll**.

REVOLTING REGENERATION ..... 30 PTS

The more wounds blasted and gouged into this champion's flesh, the more clotted matter, squirming vermin and gangrenous slime spurt forth to coagulate and seal the most grievous hurts.

DEATH GUARD model only. The bearer has the **Feel No Pain 5+** ability.

STRATAGEMS

PUTRID DETONATION

1CP

VIRULENT VECTORIUM – STRATEGIC PLOY STRATAGEM

Bloated with putrefaction and swilling with infectious poisons, the demise of this hulking entity is as revolting as it is explosively hazardous.

WHEN: Any phase.

TARGET: One DEATH GUARD VEHICLE or DEATH GUARD MONSTER model from your army with the **Deadly Demise** ability that was just destroyed. You can use this Stratagem on that model even though it was just destroyed.

EFFECT: Do not roll one D6 to determine whether **mortal wounds** are inflicted by your model's Deadly Demise ability. Instead, mortal wounds are automatically inflicted. In addition, any enemy units that suffer mortal wounds as a result of this Stratagem are Afflicted until the start of your next turn.

DISGUSTINGLY RESILIENT

2CP

VIRULENT VECTORIUM – BATTLE TACTIC STRATAGEM

Those favoured by Nurgle are inured to pain, their rotting bodies shrugging off all but the most traumatic damage with ease.

WHEN: Your opponent's Shooting phase or the Fight phase, just after an enemy unit has selected its targets.

TARGET: One DEATH GUARD unit from your army that was selected as the target of one or more of the attacking unit's attacks.

EFFECT: Until the end of the phase, each time an attack is allocated to a model in your unit, subtract 1 from the Damage characteristic of that attack.

PLAGUESURGE

2CP

VIRULENT VECTORIUM – EPIC DEED STRATAGEM

The foul miasma around the Death Guard swells and thickens, boiling outward like putrid smog.

WHEN: Your Command phase.

TARGET: Your DEATH GUARD **WARLORD** that is on the battlefield.

EFFECT: Until the start of your next Command phase, add 3" to the **Contagion Range** of models from your army.

LEECHSPORE ERUPTION — 1CP

VIRULENT VECTORIUM – EPIC DEED STRATAGEM

Billowing from this warrior's wounds come clouds of parasitic spores that settle on the foe and drain their vitality, stealing it for the one who spawned them.

WHEN: Your Command phase.

TARGET: One DEATH GUARD model your army that has lost one or more wounds.

EFFECT: Select one enemy unit within 3" of your model. Roll a number of D6 equal to the number of wounds your model has lost: for each 5+, that enemy unit suffers one **mortal wound** (to a maximum of 6 mortal wounds) and your model regains 1 lost wound (to a maximum of 6 lost wounds).

OVERWHELMING GENEROSITY — 1CP

VIRULENT VECTORIUM – WARGEAR STRATAGEM

Unholy filth gushes from Nurgle's faithful into their guns until the armaments threaten to burst like bloated corpses.

WHEN: Start of your Shooting phase.

TARGET: One DEATH GUARD CHARACTER unit from your army.

EFFECT: Select one enemy unit **visible** to your unit. Until the end of the phase, each time a DEATH GUARD unit from your army selects that enemy unit as the target of any ranged attacks, you can re-roll the dice to determine how many attacks a weapon equipped by a model in that unit makes.

CREEPING BLIGHT — 1CP

VIRULENT VECTORIUM – WARGEAR STRATAGEM

Those in the grip of Nurgle's unholy plagues become weaker by the moment, barely able to lift their weapons, let alone defend themselves from the attacking Death Guard.

WHEN: Your Shooting phase.

TARGET: One DEATH GUARD INFANTRY unit from your army that has not been selected to shoot this phase.

EFFECT: Until the end of the phase, each time a model in your unit makes a ranged attack that targets an **Afflicted** unit, you can re-roll the **Hit roll** and you can re-roll the **Wound roll**.

ERRATA Show

MORTARION'S HAMMER — 2DP

The armoured might of the Death Guard has warped and corroded over the millennia, but it remains prodigious. Formed into grinding spearheads and smog-belching batteries, squadrons of ancient battle tanks and Daemon Engines mass their blunt and brutish power before unleashing it on the foe. Their onslaught is heralded by a rain of rust-pocked artillery shells, alchemical munitions and brittleglass plague-spheres hurled from infernal field guns and towering Daemon Engines behind the lines. The foe cower beneath this explosive deluge, many torn apart by thunderous detonations or eaten away by whirling spore clouds. Amid the devastation surge reaper colonies of Plague Marines mounted in Rhinos and Land Raiders. These warriors are masters of capitalising upon their foes' dismay and horror, tearing the guts out of the

most formidable defence lines even as carrion-feeding war engines close in to finish off knots of resistance. Many a siege has been swiftly broken in this way by the fall of Mortarion's Hammer.

DETACHMENT RULE

MIASMIC BOMBARDMENT

In the wake of preparatory bombardment by artillery weapons both forbidden and foul, the surviving foe are left reeling amidst clouds of plague smog. With their flesh running like tallow and their weapons rusting in their hands, they will be hard-pressed to fight back.

At the start of the battle round, select a number of enemy units more than 12" away from every model from your army that is on the battlefield. Until the end of the battle round, those enemy units are **Afflicted**. The maximum number of units you can select in this way depends on the battle size, as shown below.

BATTLE SIZE	UNITS
Incursion	**1**
Strike Force	**2**
Onslaught	**3**

ENHANCEMENTS

EYE OF AFFLICTION ..... 20 PTS

Peering at the world through this bloated yellow orb, the bearer of this vile gift sees the souls of the sickened burning bright as targeting flares no matter how their victims try to hide.

DEATH GUARD model only. Ranged weapons equipped by models in the bearer's unit have the [IGNORES COVER] ability while targeting an **Afflicted** enemy unit.

BILEMAW BLIGHT ..... 10 PTS

This foul sorcerer has been blessed with a unique affliction that allows them to inflate their body like a repulsive bellows before vomiting forth a pressurised torrent of filth that would do any Great Unclean One proud.

MALIGNANT PLAGUECASTER only. At the start of your Shooting phase, until the end of the phase, add 12" to the Range characteristics of the bearer's Plague Wind weapon.

SHRIEKWORM FAMILIAR ..... 15 PTS

This daemonic familiar lives in the champion's flesh and watches with bitter paranoia for enemy threats. Should it spot a counterattack from the foe, it bursts forth to scream its shrill warning.

DEATH GUARD model only. Once per battle round, you can target the bearer's unit with the **Fire Overwatch** Stratagem for 0CP.

TENDRILOUS EMISSIONS ..... 30 PTS

This warrior has gained greater control of the vile fumes that billow from their armour, willing them forward like coiling tentacles to wreathe targets and guide in the fire of allied war engines.

LORD OF VIRULENCE only. While the bearer is within 3" of one or more friendly DEATH GUARD VEHICLE units, the bearer has the **Lone Operative** ability, and each time one of those VEHICLE units makes a ranged attack that targets an enemy unit **visible** to the bearer, re-roll a **Wound roll** of 1.

STRATAGEMS

BLIGHTED LAND — 2CP

MORTARION'S HAMMER – STRATEGIC PLOY STRATAGEM

Firing diseased submunitions or belching swarms of daemonic parasites from its hull, this war engine befouls the battlefield as it advances.

WHEN: End of your Movement phase.

TARGET: One DEATH GUARD VEHICLE unit from your army.

EFFECT: Select one **terrain feature** within 24" of and **visible** to your unit. Until the start of your next turn, enemy units are **Afflicted** while they are within 3" of that terrain feature.

RELENTLESS GRIND — 1CP

MORTARION'S HAMMER – STRATEGIC PLOY STRATAGEM

When the armoured vehicles of the Death Guard advance, they plough through - or straight over- anything that stands in their way.

WHEN: Your Movement phase or your Charge phase.

TARGET: One DEATH GUARD VEHICLE unit from your army that has not been selected to move or charge this phase.

EFFECT: Until the end of the phase, each time your unit makes a **Normal**, **Advance** or **Charge move**, it can move horizontally through **terrain features**.

DRAWN TO DESPAIR — 1CP

MORTARION'S HAMMER – BATTLE TACTIC STRATAGEM

Those who languish in misery or cower in terror make themselves easy targets for the Death Guard.

WHEN: Your Shooting phase.

TARGET: One DEATH GUARD unit from your army that has not been selected to shoot this phase.

EFFECT: Until the end of the phase, each time a model in your unit makes an attack that targets a **visible** enemy unit (excluding AIRCRAFT) within your opponent's deployment zone, you can re-roll the **Hit roll**.

FONT OF FILTH — 1CP

MORTARION'S HAMMER – STRATEGIC PLOY STRATAGEM

As though afflicted with some awful vomiting sickness, this vehicle's weapons retch an endless stream of fire at the enemy, heaving themselves empty even as it storms into the enemy lines.

WHEN: Your Shooting phase.

TARGET: One DEATH GUARD VEHICLE unit from your army that has not been selected to shoot this phase.

EFFECT: Until the end of the phase, ranged weapons equipped by models in your unit have the [ASSAULT] ability.

EYESTINGER STORM

1CP

MORTARION'S HAMMER – STRATEGIC PLOY STRATAGEM

Swarms of these revolting insects burrow hives into the hulls of Death Guard vehicles. Drawn to sickened prey, they boil forth in buzzing masses and descend on the foe, spreading panic and horror.

WHEN: Your opponent's Command phase.

TARGET: One DEATH GUARD VEHICLE unit from your army.

EFFECT: Select one objective marker **visible** to one or more models in your unit. Each **Afflicted** enemy unit within range of that objective marker must take a **Battle-shock test**. Enemy units affected by this Stratagem do not need to take any other Battle-shock tests in the same phase.

STINKING MIRE

1CP

MORTARION'S HAMMER – STRATEGIC PLOY STRATAGEM

Attempting to counterattack Death Guard can leave foes floundering amidst bubbling filth.

WHEN: Start of your opponent's Charge phase.

TARGET: One friendly **unengaged** DEATH GUARD VEHICLE unit.

EFFECT: Select one **visible** enemy unit within 12" of your unit. When that enemy unit **declares a charge**, that enemy unit has -1 to **charge rolls**.

ERRATA Show

CHAMPIONS OF CONTAGION

2DP

There are many ways to worship Nurgle: the brewing of virulent plagues, the foul perversion of the surgeon's craft, sharing the abundance of unfettered sickness with armies of foes; the champions of the Death Guard practise these and many other expressions of the Plague Lord's faith. A vectorium rich in these diabolical madmen can unleash the full horror of the Legion's alchemical, biological and sorcerous weapons. Foul Blightspawn lumber amidst their comrades, their excremental reek heralding the jetting corrosive sprays of their weapons. Noxious Blightbringers toll their tocsins of misery, battering the foe with entropic shock waves even as Biologus Putrifiers caper through their ranks to fling brittleglass alembics and jab the needles of their injector pistols into promising victims. All the while, the droning count of the Tallymen booms out through rusted vox-emitters, and Plague Surgeons ply their macabre trade, even as their fellow Plague Marines storm relentlessly forward over the withered and maddened remnants of the foe.

DETACHMENT RULE

MANIFOLD MALADIES

A spirit of competition infects Nurgle's champions when they fight alongside one another. With each vying to outdo the others in virulence, the foes are subjected to a riotous string of nightmarish outbreaks amongst their ranks.

At the start of the battle round, you can select one of the Plagues listed in **Nurgle's Gift**. Until the end of the battle, that is your chosen Plague instead of any previously chosen Plague.

ENHANCEMENTS

FINAL INGREDIENT ..... 20 PTS

Be it the eye of a Kroot or a Space Marine's hearts, ground Ork tusk, or something unnameable wrenched from within a Tyranid's corpse, this champion needs just one more ingredient to perfect a powerful new plague.

BIOLOGUS PUTRIFIER only. Once per battle, after the bearers unit has fought, if one or more CHARACTER models were destroyed as a result of those attacks, select one Plague. Until the end of the battle, while an enemy unit is **Afflicted**, that unit has the effect of the selected Plague in addition to any other.

VISIONS OF VIRULENCE ..... 15 PTS

The touch of this sorcerer's mind upon another triggers feverish visions of abundant foulness that erupt into physical manifestations as they reach their crescendo.

MALIGNANT PLAGUECASTER only. While an enemy unit is enfeebled by the bearer's Pestilent Fallout ability, that unit is also **Afflicted**.

NEEDLE OF NURGLE ..... 25 PTS

This plague-saturated narthecium delivers generous doses of infernal maladies that restore life to even the most hideously mangled of Mortarion's sons.

PLAGUE SURGEON only. Each time the bearer uses its Tainted Narthecium ability, you can return up to D3 destroyed models to the bearer's unit (instead of 1).

CORNUCOPHAGUS ..... 35 PTS

A plague bellows fashioned by daemonic smiths in a realm of pure putrescence, this rasping device exhales an endless cloying soup of lividly glowing plague motes.

LORD OF POXES only. In the Declare Battle Formations step select one Plague. Until the end of the battle, while an enemy unit is within **Contagion Range** of the bearer, that enemy unit has the effect of that Plague in addition to any other.

STRATAGEMS

BLESSINGS OF FILTH — 1CP

CHAMPIONS OF CONTAGION – BATTLE TACTIC STRATAGEM

Employing their unique gifts, this champion enhances the weapons of their comrades with even greater levels of infectious malevolence.

WHEN: Your Shooting phase or the Fight phase.

TARGET: One DEATH GUARD Attached unit from your army that has not been selected to shoot or fight this phase.

EFFECT: Until the end of the phase, each time a model in your unit makes an attack, an unmodified **Hit roll** of 5+ scores a Critical Hit.

MALIGNANCE MAGNIFIED — 2CP

CHAMPIONS OF CONTAGION – BATTLE TACTIC STRATAGEM

The vile talents of such plague specialists act like a filth-smeared lens, focusing and intensifying the infectious gifts of Nurgle.

WHEN: Your Shooting phase or the Fight phase.

TARGET: One DEATH GUARD Attached unit from your army that has not been selected to shoot or fight this phase.

EFFECT: Until the end of the phase, each time a model in your unit makes an attack that targets a unit that is below its Starting Strength, you can re-roll the **Hit roll** and you can re-roll the **Wound roll**.

GROTESQUE FORTITUDE — 1CP

CHAMPIONS OF CONTAGION – BATTLE TACTIC STRATAGEM

After their champion calls down the blessings of Nurgle, these warriors can fight on no matter the catastrophic, often gruesome, damage done to them by the foe.

WHEN: Your opponent's Shooting phase or the Fight phase, just after an enemy unit has selected its targets.

TARGET: One DEATH GUARD Attached unit from your army that was selected as the target of one or more of the attacking unit's attacks.

EFFECT: Until the end of the phase, add 2 to the Toughness characteristic of models in your unit.

RABID INFUSION

1CP

CHAMPIONS OF CONTAGION – STRATEGIC PLOY STRATAGEM

The combined talents of these Death Guard champions drive their followers into a foam-jawed fury, be it through injection with a curdled cocktail of stimms or immersion in a fug of infectious agents.

WHEN: Start of the Fight phase.

TARGET: One DEATH GUARD unit from your army that includes two CHARACTER models.

EFFECT: Until the end of the phase, your unit has the **Fights First** ability.

MOBILE VECTOR

1CP

CHAMPIONS OF CONTAGION – STRATEGIC PLOY STRATAGEM

Nurgle's champions move through the Death Guard ranks like squirming parasites.

WHEN: Your Movement phase, before the Reinforcements step.

TARGET: One DEATH GUARD CHARACTER unit from your army that is not leading a unit.

EFFECT: Select one other friendly DEATH GUARD unit (excluding **Battle-shocked** units and Attached units that already have two Leader units or one of your CHARACTER units leading it] within 2" horizontally and 5" vertically of your unit that your unit can lead (as described in the Leader section of its datasheet]. Your unit attaches to that unit as a Leader. Change that unit's Starting Strength accordingly.

DEATH'S HEADS

1CP

CHAMPIONS OF CONTAGION – WARGEAR STRATAGEM

It takes much effort and sacrifice to fashion the disgusting explosives known as death's heads, but the results are spectacularly horrible.

WHEN: Your Shooting phase.

TARGET: One BIOLOGUS PUTRIFIER unit from your army that is not within **Engagement Range** of one or more enemy units and has not been selected to shoot this phase.

EFFECT: Select one enemy unit (excluding VEHICLES) that is within 8" of and **visible** to your unit. Until the start of your next turn, that unit has the effect of all Plagues (see **Nurgle's Gift**).

TALLYBAND SUMMONERS

2DP

There are many ways for the daemons of Nurgle to burst the bounds of reality and fight alongside the Death Guard. Sometimes, they are conjured by the concentration of sickness and misery unleashed by Mortarion's sons. At others, their Tally bands may be summoned by a champion of the Death Guard reading aloud from the mouldering pages of one of the seven Books of Woe or through a ritual offering of diseased or despairing souls. Regardless of how these entities find their way to the battlefield, they plague all living things. The mere sight of Great Unclean Ones a stomping into battle like swaying mountains of rotted flab can be enough to blast the sanity of the foe. The onset of gruesome Plaguebearers, fleshy avalanches of spiteful Nurglings, bounding packs of Beasts of Nurgle, and thrumming swarms of Plague Drones proves impossible for even the most resolute enemy to halt. Even should some brave victims stand their ground, they will not last long before the ferociously infectious attentions of these befouling entities.

DETACHMENT RULE

REVERBERANT RANCIDITY

Reality rings like a struck bell as it rebels against the sheer wrongness of Nurgle's daemons. Borne upon these jarring waves of metaphysical disease, magnified and redoubled with every dolorous peal, the Plague God's myriad infections spread and multiply all the faster.

While a PLAGUE LEGIONS unit from your army is within 7" of one or more **DEATH GUARD** units from your army, that **PLAGUE LEGIONS** unit has the **Nurgle's Gift** ability.

While a DEATH GUARD unit from your army is within 7" of one or more **PLAGUE LEGIONS** units from your army, add 3" to that **DEATH GUARD** units **Contagion Range**.

PLAGUE LEGIONS

You can include PLAGUE LEGIONS units in your army, even though they do not have the **DEATH GUARD** Faction keyword. The combined points cost of such units you can include in your army is:

- **Incursion:** Up to 500 pts
- **Strike Force:** Up to 1000 pts
- **Onslaught:** Up to 1500 pts

No **PLAGUE LEGIONS** models from your army can be your **WARLORD**.

ENHANCEMENTS

BECKONING BLIGHT ..... 20 PTS

This unclean gift infects its host with animaluminescent fungus. Once their spirit is riddled with incorporeal mycelia, it begins to glow. This sickly radiance acts like a guiding lantern to the daemons of Nurgle, who follow its glare into realspace.

DEATH GUARD model only. Each time a PLAGUE LEGIONS unit from your army is set up on the battlefield using the **Deep Strike** ability, if it is set up wholly within 12" of the bearer, it can be set up anywhere that is more than 6" horizontally away from all enemy models, instead of more than 8".

ERRATA Show

FELL HARVESTER ..... 10 PTS

This repugnant daemon weapon extrudes swaying tendrils with lamprey maws to strike at the foe.

DEATH GUARD model only. Add 2 to the Attacks characteristic of the bearer's melee weapons.

ENTROPIC KNELL ..... 15 PTS

Every booming peal of this cursed bell spreads rot, lesions and buboes across the foes' bodies, sending them fleeing in terror and disgust.

GREAT UNCLEAN ONE only. In the Battle-shock step of your opponent's Command phase, each enemy unit within 6" of the bearer that is below its Starting Strength must take a **Battle-shock test**, subtracting 1 from that test.

TOME OF BOUNTEOUS BLESSINGS ..... 20 PTS

The slurred and vomit-wet incantations from this malodorous tome bolster Nurgle's daemons.

MALIGNANT PLAGUECASTER only. Each time a PLAGUE LEGIONS unit within 12" of the bearer takes a **Battle-shock test**, add 1 to that test and, if that test is passed, one model in that unit regains up to D3 lost wounds (if that unit is a BATTLELINE unit and that test is passed, up to D3 destroyed models can be returned to that unit instead).

STRATAGEMS

PERSISTENT PESTS — 1CP

TALLYBAND SUMMONERS – STRATEGIC PLOY STRATAGEM

There is no simple way to wholly cleanse a Nurgling infestation once it has taken root.

WHEN: Any phase.

TARGET: One NURGLINGS unit from your army that was just destroyed. You can target that unit with this Stratagem even though it was just destroyed.

EFFECT: Add a new unit to your army identical to your destroyed unit, in **Strategic Reserves**, at its Starting Strength and with its full wounds remaining.

RESTRICTIONS: You can only use this Stratagem once per battle.

CLUTCHING CORRUPTION — 1CP

TALLYBAND SUMMONERS – BATTLE TACTIC STRATAGEM

The daemons of Nurgle grasp their victims tightly with rotting talons and coiling tentacles, their clutch as inescapable as entropy itself.

WHEN: Fight phase.

TARGET: One DEATH GUARD unit from your army that has not been selected to fight this phase.

EFFECT: Until the end of the phase, each time a model in your unit makes an attack that targets an enemy unit that is within **Engagement Range** of one or more PLAGUE LEGIONS units from your army, you can re-roll the **Hit roll**.

ALL IS ROT — 1CP

TALLYBAND SUMMONERS – STRATEGIC PLOY STRATAGEM

Death Guard warriors open fire into foes already embattled by Nurgle's daemons, knowing that no matter who they hit, all will wither and rot.

WHEN: Your Shooting phase.

TARGET: One PLAGUE LEGIONS unit from your army that is within **Engagement Range** of one or more enemy units.

EFFECT: Until the end of the phase, enemy units are not considered to be within Engagement Range of your unit for the purposes of selecting targets of ranged weapons. Until the end of the phase, each time an enemy model loses a wound, while that model's unit is within Engagement Range of your unit, roll one D6: on a 5+, your unit suffers 1 **mortal wound** after the attacking unit has finished making its attacks.

FLESHY AVALANCHE — 1CP

TALLYBAND SUMMONERS – STRATEGIC PLOY STRATAGEM

The ephemeral structures of realspace have no power to halt the onset of Nurgle's Great Unclean Ones; they crumble, rot and burst apart before their unholy bulk.

WHEN: Your Movement phase or your Charge phase.

TARGET: One PLAGUE LEGIONS MONSTER unit from your army that has not been selected to move or charge this phase.

EFFECT: Until the end of the phase, each time your unit makes a **Normal**, **Advance** or **Charge move**, it can move horizontally through **terrain features**.

AVATARS OF DECAY — 1CP

TALLYBAND SUMMONERS – STRATEGIC PLOY STRATAGEM

Countless diseases blossom in the unreal flesh of Nurgle's daemon childer, manifestations of his blessings to be spread to all.

WHEN: Your Shooting phase.

TARGET: One PLAGUE LEGIONS unit from your army.

EFFECT: Until the end of the phase, while an enemy unit is within 6" of your unit, that enemy unit is **Afflicted**.

MIRESLICK — 1CP

TALLYBAND SUMMONERS – STRATEGIC PLOY STRATAGEM

Beneath the tread of Nurgle's daemons, even ferrocrete or plasteel soon turns to a quagmire of rotting matter, in which their unlucky enemies begin to sink and become trapped.

WHEN: Your opponent's Movement phase, when an enemy unit (excluding MONSTERS and VEHICLES) is selected to Fall Back.

TARGET: One PLAGUE LEGIONS unit from your army that is within **Engagement Range** of that enemy unit.

EFFECT: Until the end of the phase, while an enemy unit is within Engagement Range of your unit, each time that unit is selected to Fall Back, it must take a **Leadership test**. If that test is failed, that unit must Remain Stationary this phase instead.

SHAMBLEROT VECTORIUM — 2DP

Many vectoriums unleash heaving swarms of Poxwalkers to soften up and encircle their foes. The first the enemy knows of such an onslaught is the stink of diseased flesh upon the air, mingled with the agonised groans of countless plague-ridden mutants. Then they come - spilling from doorways and windows, boiling up from sewer outlets, trench networks and subterranean transit networks, crawling out of vehicle wrecks and rising from carrion heaps; thousands upon thousands of Poxwalkers converging on the foe at a stumbling yet relentless pace. Engulfed in a sea of grasping hands, biting maws and bloated flesh, even the finest strategies of the foe falter and fail. The enemy finds themselves forced into a battle for survival as they strive to fend off the Poxwalkers closing in from every side. It is at this point that the Death Guard themselves strike. Off balance, broken into desperate pockets and running low on ammunition, the foe has little hope of standing against this second, more punishing onslaught.

DETACHMENT RULE

NUMBERLESS HORDE

No matter how many Poxwalkers the enemy gun down or tear limb-from-limb at close quarters, more groaning mutants keep coming from every side.

In your Command phase in each of the following battle rounds, depending on your chosen battle size, add a new **POXWALKERS** unit with a Starting Strength of 10 to your army, in **Strategic Reserves**.

BATTLE SIZE	BATTLE ROUNDS
Incursion	**2,3**
Strike Force	**2, 3, 4**
Onslaught	**2, 3, 4, 5**

KEYWORDS

POXWALKERS units from your army gain the **BATTLELINE** keyword.

ENHANCEMENTS

WITHERBONE PIPES ..... 25 PTS

This sinister artefact emits a reedy dirge to which Poxwalkers seem drawn and by whose mournful notes they appear energised and lent an echo of purpose.

NOXIOUS BLIGHTBRINGER only. While the bearer is leading a **POXWALKERS** unit, add 1 to the Objective Control characteristic of models in that unit, and each time that unit takes a Battle-shock or **Leadership test**, add 1 to that test.

LORD OF THE WALKING POX ..... 15 PTS

Gifted by Nurgle to be forever surrounded by shambling packs of Poxwalkers, this champion has become adept at leading their festering hordes into battle.

DEATH GUARD model only. If the bearer is leading a **POXWALKER** unit, and is in **Strategic Reserves**, for the purposes of setting up that unit on the battlefield, treat the current battle round as the third battle round.

SORROWSYPHON ..... 10 PTS

Parasitising the miserable scraps of soul within nearby Poxwalkers allows this sorcerer to belch even more malignant clouds of murderous foulness.

MALIGNANT PLAGUECASTER only. While the bearer is leading a **POXWALKERS** unit, add 1 to the Damage characteristic of the bearer's Plague Wind weapon. Each time the bearer makes one or more attacks with a Plague Wind weapon, after the bearer's unit has resolved its attacks, D3 **Bodyguard** models from the bearer's unit are destroyed.

TALISMAN OF BURGEONING ..... 25 PTS

This mould-furred talisman is studded with teeth torn from Poxwalkers' jaws. It bolsters the creatures' putrid vitality, forcing them to stagger and fight even through grotesque wounds.

DEATH GUARD model only. While the bearer is leading a unit, add 1 to the Toughness characteristic of **POXWALKERS** models in that unit.

STRATAGEMS

GRIP OF THE WALKING POX — 1CP

SHAMBLEROT VECTORIUM – STRATEGIC PLOY STRATAGEM

Those infected by walking pox may fall as though fatally wounded, but they soon rise again.

WHEN: Fight phase, just after an enemy unit has selected its targets.

TARGET: One POXWALKERS unit from your army that was selected as the target of one or more of the attacking unit's attacks.

EFFECT: After the attacking unit has fought, roll one D6 for each model from your unit that was destroyed as a result of those attacks: on a 6, the attacking unit suffers 1 **mortal wound**. If your unit is not destroyed after the attacking unit has fought, enemy models destroyed as a result of this Stratagem count as enemy models destroyed by an attack made by a model in your unit for the purposes of the Curse of the Walking Pox ability.

SMEARED WITH FILTH — 1CP

SHAMBLEROT VECTORIUM – STRATEGIC PLOY STRATAGEM

Hacking a path through a horde of Poxwalkers leaves aggressors coated in infectious matter.

WHEN: Fight phase.

TARGET: One POXWALKERS unit from your army that was just destroyed. You can target that unit with this Stratagem even though it was just destroyed.

EFFECT: Select one enemy unit that made one or more attacks that targeted your unit this phase. Until the end of the battle, that enemy unit is **Afflicted**.

GNAWING HUNGER — 1CP

SHAMBLEROT VECTORIUM – BATTLE TACTIC STRATAGEM

Gripped by a sudden, monstrous hunger, the Poxwalkers surge forward in a ravenous mass.

WHEN: Your Command phase.

TARGET: One POXWALKERS unit from your army.

EFFECT: Until the end of the turn, add 1 to the Move characteristic of models in your unit, and add 1 to the Attacks and Strength characteristics of melee weapons equipped by models in your unit.

HIDDEN AMONGST THE DEAD — 1CP

SHAMBLEROT VECTORIUM – STRATEGIC PLOY STRATAGEM

Another wave of Poxwalkers rises from the battlefield's carrion heaps.

WHEN: The Reinforcements step of your Movement phase.

TARGET: One POXWALKERS unit from your army that is in **Strategic Reserves** and that is not an Attached unit.

EFFECT: Until the end of the phase, models in that unit have the **Deep Strike** ability.

SHOCK AND HORROR — 1CP

SHAMBLEROT VECTORIUM – STRATEGIC PLOY STRATAGEM

Already dismayed by this living nightmare, the enemy falters before another sudden onslaught.

WHEN: Your Charge phase, just after a DEATH GUARD unit from your army ends a **Charge move**.

TARGET: That DEATH GUARD unit.

EFFECT: Each enemy unit within **Engagement Range** of your unit must take a **Battle-shock test**, subtracting 1 from that test.

SHAMBLING WALL — 1CP

SHAMBLEROT VECTORIUM – STRATEGIC PLOY STRATAGEM

Lacking even basic self-preservation instincts, Poxwalkers make excellent walking shields.

WHEN: Your opponent's Shooting phase, just after an enemy unit has selected its targets.

TARGET: One DEATH GUARD unit from your army that was selected as the target of one or more of the attacking unit's attacks, and one friendly POXWALKERS unit within 3" of your unit and **visible** to both your unit and the attacking unit.

EFFECT: Until the end of the phase, each time you would allocate an attack to a model in your DEATH GUARD unit, if your POXWALKERS unit is visible to the attacking model and is an eligible target for that attack, no saving throw is made for that attack; instead a number of POXWALKERS from your POXWALKERS unit equal to the Damage characteristic of that attack are destroyed.

DEATH LORD'S CHOSEN — 2DP

The mightiest champions of the Death Guard are as formidable in battle as they are bloated with the infectious blessings of Nurgle. When they congeal into a unified fighting force, these dread warriors become the grim and relentless will of Mortarion made manifest. Such a vectorium is quite capable of conquering an enemy flagship or command fortress, launching assassination strikes against crucial enemy personnel or breaking into the most heavily defended sacred sites. It is not unusual for Mortarion's champions to turn the course of an entire war with a single shock onslaught or immovable defensive action; this is most likely when the Daemon Primarch leads in person. With their gene-sire's jaundiced gaze weighing heavy upon them, bands of Deathshroud and Blightlord Terminators tear an unstoppable path through the foe. Supported by hand-picked squads of Plague Marines, bellowing Helbrutes and twisted champions, they sweep aside all who stand in their path.

DETACHMENT RULE

DEADLY VECTORS

The plagues and parasites to which these elite warriors play host are amongst the most lethal in the galaxy. Moment by moment, even the most resilient foes sicken and wither in their presence until all that remains is rotted matter deliquescing sloppily from mouldering bones.

In your opponent's Command phase, roll 2D6 for each **Afflicted** enemy unit, subtracting 1 from the result if that unit is **Below Half-strength**. If the result is 6 or less, that enemy unit suffers D3 **mortal wounds**.

ENHANCEMENTS

FACE OF DEATH ..... 10 PTS

So grotesque and monstrous is this champion's aspect that it fills the enemy with unreasoning dread simply to look upon him.

TERMINATOR model only. At the start of the Fight phase, each enemy unit within **Engagement Range** of the bearer's unit must take a **Battle-shock test**.

VILE VIGOUR ..... 15 PTS

A fanatical worshipper of Nurgle and a talented orator, this champion can infect their followers with the urgent need to forge into battle and spread the Plague God's blessings to all.

TERMINATOR model only. While the bearer is leading a unit, add 1" to the Movement characteristic of models in that unit and you can re-roll **Advance rolls** made for that unit.

WARPROT TALISMAN ..... 30 PTS

By invoking the power of this ancient talisman, the bearer can rot a sagging rent in reality and step through the Warp to burst forth elsewhere amidst a gushing sluice of foul fluids.

TERMINATOR model only. Once per battle, at the end of your opponent's turn, if the bearer's unit is not within **Engagement Range** of one or more enemy units, you can remove it from the battlefield and place it into **Strategic Reserves**.

HELM OF THE FLY KING ..... 20 PTS

This armoured helm was crafted by the Daemon Prince Vermifulgus the Pestilent and carries his squirming enchantments. It manifests its wearer's will as roaring swarms of plump flies that whirl about their creator like an occluding shroud or descend on the foe to blind eyes, clog sensors and spread revolted panic.

TERMINATOR model only. While the bearer is leading a unit, models in that unit cannot be targeted by ranged attacks unless the attacking model is within 18".

STRATAGEMS

BLOOMING PESTILENCE — 1CP

DEATH LORD'S CHOSEN – EPIC DEED STRATAGEM

Death Guard warriors know to chant the sevenfold prayers to unleash Nurgle's bounty on the foe.

WHEN: Start of any phase.

TARGET: One TERMINATOR unit from your army.

EFFECT: Until the end of the phase, add 3" to the **Contagion Range** of models in your unit.

GRIM REAPERS — 1CP

DEATH LORD'S CHOSEN – BATTLE TACTIC STRATAGEM

Swollen with bitter arrogance, these warriors carve a path through their perceived lessers and leave them as worm food.

WHEN: Fight phase.

TARGET: One TERMINATOR unit from your army that has not been selected to fight this phase.

EFFECT: Until the end of the phase, each time a model in your unit makes an attack that targets an enemy unit (excluding MONSTERS and VEHICLES) you can re-roll the **Hit roll**.

UNDYING SPITE — 1CP

DEATH LORD'S CHOSEN – STRATEGIC PLOY STRATAGEM

Driven by bitterness and the putrid vitality of Nurgle's gifts, these warriors fight on for several moments, even after death.

WHEN: Fight phase, just after an enemy unit has selected its targets.

TARGET: One TERMINATOR unit from your army that was selected as the target of one or more of the attacking unit's attacks.

EFFECT: Until the end of the phase, each time a model in your unit is destroyed, if that model has not fought this phase, roll one D6. On a 4+, do not remove the destroyed model from play; it can fight after the attacking unit has finished making its attacks, and is then removed from play.

SIGNAL POX — 1CP

DEATH LORD'S CHOSEN – EPIC DEED STRATAGEM

Guided in by rasping jets of fumes sent up by this Lord of Virulence, plague-ridden artillery fire and airbursting spore-shells saturate the target zone.

WHEN: Your Command phase.

TARGET: One LORD OF VIRULENCE model from your army.

EFFECT: Select one objective marker within 30" of and **visible** to your model. Until the start of your next turn, while an enemy unit is within range of that objective marker, that unit is **Afflicted**.

MORTARION'S TEACHINGS

1CP

DEATH LORD'S CHOSEN – STRATEGIC PLOY STRATAGEM

Exemplifying the Daemon Primarch's doctrines on versatile heavy infantry tactics, these warriors position themselves and let fly.

WHEN: Your Shooting phase.

TARGET: One TERMINATOR unit from your army that has not been selected to shoot this phase.

EFFECT: Until the end of the phase, ranged weapons equipped by models in your unit have the [ASSAULT] and [HEAVY] abilities.

SICKENING IMPACT

1CP

DEATH LORD'S CHOSEN – STRATEGIC PLOY STRATAGEM

Employing their crushing bulk and contagious gifts, these Terminators slam into their victims and grind them into putrefying mulch.

WHEN: Your Charge phase, just after a TERMINATOR unit from your army ends a **Charge move**.

TARGET: That TERMINATOR unit.

EFFECT: Select one enemy unit within **Engagement Range** of your unit, then roll one D6 for each model in your unit that is within Engagement Range of that enemy unit: for each 2+, that enemy unit suffers 1 **mortal wound** (to a maximum of 6 mortal wounds).

FLYBLOWN HOST

1DP

PLAGUE MARINES ADVANCE INEXORABLY AMIDST A THRUMMING HAZE OF SWOLLEN DAEMON FLIES

DETACHMENT RULE

VERMINOUS HAZE

A cloud of winged insects descends over Mortarion's pathogenic sons, obscuring their malodorous ranks and shielding them from the eyes and augurs of the enemy. Beneath thrumming storms of fat-bodied flies, Plague Marines stride towards their wavering foes until they are close enough to unleash punishing volleys of killing fire.

In the **Declare Battle Formations** step, you can select up to two friendly PLAGUE MARINES units. Those units have **Infiltrators**.

This **detachment** has the ~~FLYBLOWN~~ tag and cannot be taken with another FLYBLOWN **detachment**.

ENHANCEMENTS

INSECTILE MURMURATION UPGRADE ..... 15 PTS

The buzzing swarms respond to the will of Nurgle's disciples, sweeping down upon their chosen target, their crawling, biting and droning enfeebling the horrified foe.

PLAGUE MARINES unit only. When this unit's attacks target a unit within **Contagion Range** of a friendly unit, those attacks can re-roll **wound rolls** of 1.

PLAGUEVEIL UPGRADE ..... 15 PTS

Nurgle's blessings manifest as a buzzing clot of darkness that falls over these diseased pilgrims, enveloping them like an enshrouding fog.

PLAGUE MARINES unit only. This unit has -3" **detection range**.

STRATAGEMS

NAUSEATING PAROXYSMS — 1CP

FLYBLOWN HOST STRATAGEM

The contagion borne by the Death Guard and their attendant swarms of winged vermin triggers bouts of sickness and convulsion in those they encounter.

WHEN: Start of the Fight phase

TARGET: One friendly **engaged** PLAGUE MARINES unit.

EFFECT: Select one enemy unit **engaged** with your unit. That enemy unit makes a **battle-shock roll**, with -1 to that **battle-shock roll**.

DRONING HORROR — 1CP

FLYBLOWN HOST STRATAGEM

Clouds of droning daemon flies sweep across the battlefield to envelop the enemies of the Death Guard. As their victims claw and scratch at the seething swarms, Mortarion's sons pick off their targets at leisure.

WHEN: Your Shooting phase, when a friendly PLAGUE MARINES unit is **selected to shoot**.

TARGET: That PLAGUE MARINES unit.

EFFECT: Your unit's ranged attacks:

- Can re-roll **hit rolls** of 1.
- That target a unit within half range, can re-roll **wound rolls** of 1.

EYE OF THE SWARM — 1CP

FLYBLOWN HOST STRATAGEM

The vermin swarms intensify as the Death Guard close in upon the enemy. As their foes clutch and tear their crawling skin, pitiless Plague Marines unleash volleys of point-blank fire into their tormented foes.

WHEN: Your Shooting phase, when a friendly PLAGUE MARINES unit is **selected to shoot**.

TARGET: That PLAGUE MARINES unit.

EFFECT: Your unit's ranged attacks have [CLOSE-QUARTERS].

PARAGONS OF PUTRESCENCE — 1DP

THE CHAMPIONS OF THE DEATH GUARD RADIATE THE MOST LETHAL OF CONTAGIONS

DETACHMENT RULE

HYPERVIRULENT STRAINS

The rancid champions of the Death Guard are blessed with the most virulent contagions of Nurgle, supernatural strains that radiate towards unwilling hosts in floods of foulness

Friendly DEATH GUARD CHARACTER units have +3" to their **Contagion Range** (to a maximum of 12").

ENHANCEMENTS

REJUVENATING SWARM ..... 20 PTS

With a hacking prayer to Nurgle, this warrior can call upon a swarm of plague mites. Buzzing clumps of diseased flies and writhing waves of squirming things settle upon the bloated forms of the Death Guard and vomit streams of rejuvenating contagion into festering wounds.

DEATH GUARD INFANTRY model only (excluding TERMINATOR models). Attacks that target this unit with a **S** greater than this unit's **T** have -1 to **wound rolls**.

HOST OF THE HYBRIDISED POX ..... 40 PTS

One plague is never enough for this champion, and their repulsive form is a vessel for a mutated and semisentient disease capable of manifesting in varied contagious forms.

DEATH GUARD INFANTRY model only. (Once per battle, per army) In your Command phase, you can use this ability. If you do, select one of the **Plague** listed in **Nurgle's Gift**. Enemy units within **Contagion Range** of this unit also have the effect of that **Plague** in addition to your army's chosen **Plague** until the end of the battle.

STRATAGEMS

TERRITORIAL INFECTION — 1CP

PARAGONS OF PUTRESCENCE STRATAGEM

The intensive contagions that flow in abundance from this champion taint everything around them, making taking ground from them a repulsive prospect for the enemy.

WHEN: Start of the Command phase.

TARGET: One friendly DEATH GUARD CHARACTER unit.

EFFECT: Your unit has +1 **OC** until the end of the turn.

AGGRAVUS SPASMS — 1CP

PARAGONS OF PUTRESCENCE STRATAGEM

There is no hiding from contagion, and particular pathogens can incite neurological paroxysms that force their victims to give away their positions in painful throes.

WHEN: Start of your Shooting Phase.

TARGET: One friendly DEATH GUARD CHARACTER unit.

EFFECT: Select one **visible** enemy unit within **Contagion Range** of your unit. That enemy unit has +6" **detection range**.

SIMULTANEOUS CONTAMINATION — 1CP

PARAGONS OF PUTRESCENCE STRATAGEM

The worst infections spread both visibly and subtly. Thus do the Death Guard's champions attack, ordering vile operations, the two vectors more deadly than either alone.

WHEN: Your Shooting phase, when a friendly DEATH GUARD CHARACTER unit **starts an action**.

TARGET: That DEATH GUARD CHARACTER unit.

EFFECT: That **action** does not prevent your unit from being **eligible to shoot**.

CRUSADE RULES

In this section you'll find additional rules for playing Crusade battles that are bespoke to the DEATH GUARD units. You can find out more about Crusade armies in the main Crusade rules.

This section contains the following rules:

BOONS OF NURGLE

Here you will find uniquely potent Battle Honours for **DEATH GUARD CHARACTERS** that run the risk of turning your powerful warriors into Chaos Spawn.

A GRAND PLAGUE

The Death Guard are devoted in the service of Nurgle, and seek ever to increase his grip on the galaxy. The rules presented in this section frame a particular campaign for your army, as they seek to weaponise a plague and use it to conquer a world.

ALCHEMICAL PATHOGENS

In this section, you will find rules for tailoring the poisons and pathogens wielded by your army, allowing you to customise the way your units' Lethal Hits weapons work in your battles.

AGENDAS

DEATH GUARD armies can attempt to achieve unique Agendas in addition to those found in other publications. These represent the factions unique goals and their particular methods of waging war.

REQUISITIONS

DEATH GUARD armies have access to a number of bespoke Requisitions in addition to those found in other publications.

BATTLE TRAITS

As they gain experience and prowess, **DEATH GUARD** units in your Crusade force can be given one of the Battle Traits in this section instead of one presented elsewhere.

CRUSADE RELICS

In addition to the Crusade Relics presented in other publications, **DEATH GUARD CHARACTER** units can claim one of the Crusade Relics found here.

CRUSADE BADGES

Here you will find three Crusade Badges representing goals you can set yourself when campaigning with your Crusade force. Once one is achieved, you could set yourself a new goal, or take the opportunity to start a new Crusade force.

PLAGUE LEGIONS AND POXWALKERS

When mustering your Crusade army, if you are using the Tallyband Summoners Detachment, you will be able to include **PLAGUE LEGIONS** units from your Crusade force in your Crusade army.

PLAGUE LEGIONS and **POXWALKERS** units can never gain Experience points or Battle Honours. However, they automatically pass any Out of Action tests they are required to take, so never gain Battle Scars. You can mark the Experience points section of such units' Crusade cards with 'N/A' to remind you.

BOONS OF NURGLE

Boons of Nurgle are a type of Battle Honour that can be given to **DEATH GUARD CHARACTER** models. Each time a **DEATH GUARD CHARACTER** model from your army would gain a Battle Honour, you can choose for it to gain a Boon of Nurgle. **DAEMON PRINCE** models cannot gain Boons of Nurgle, and no model from your Crusade force can have more than three Boons of Nurgle.

Each time a model gains a Boon of Nurgle, roll a D33 to randomly determine one from the table below. To do so, roll two D3 one after the other: the first result determines your 'tens' and the second your 'units'. For example, if you roll two D3 and the first result is a 2 and the second is a 1, the D33 result is 21.

A model can have more than one Boon of Nurgle, but if you roll a result that duplicates a Boon of Nurgle a model already has, that model's unit suffers Spawndom (see below). As with any Battle Honour, make a note on a model's Crusade card when it gains a Boon of Nurgle, and increase its Crusade points by 1.

SPAWNDOM

There are significant risks to dedicating oneself to Nurgle and inviting the Plague Gods repulsive gifts. Many powerful champions have degenerated into swollen masses of rotting flesh, putrid muscle and screaming mouths, ending their Path to Glory as insane mutant aberrations. These mindless beasts are then herded together with other unfortunate Spawn and goaded towards the enemy to spread sickness in Nurgle's name.

If a **DEATH GUARD** unit from your Crusade force suffers Spawndom, remove that unit from your Crusade force, then add a new **DEATH GUARD CHAOS SPAWN** unit to your Crusade force. The new unit has the same number of Battle Honours, Battle Scars and XP as the unit it replaced. If adding this unit would cause your Crusade points total to exceed your Crusade forces Supply Limit, you must first increase your Supply Limit (such as by using the Increase Supply Limit requisition) or your unit is removed from your Crusade force and no new unit is added in its place.

BOONS OF NURGLE	D33
Febrile Vitality: Add 1" to the Move characteristic of models in this model's unit.	11
Slitherswift Limbs: Add 1 to **Advance** and **Charge rolls** made for this model's unit.	12
Writhing Tentacles: Add 1 to the Attacks characteristic of melee weapons equipped by this model.	13
Grossly Swollen: Add 2 to this model's Wounds characteristic.	21
Leprous Insensibility: This model has the **Feel No Pain 5+** ability.	22
Veil of Flies: Models in this model's unit have the **Stealth** ability.	23
Touch of Rot: Improve the Armour Penetration characteristic of melee weapons equipped by this model by 1.	31
Plaguesight: Each time this model makes an attack that targets an **Afflicted** unit, you can re-roll the **Hit roll**.	32
Billowing Miasma: Add 6" to this model's **Contagion Range**.	33

A GRAND PLAGUE

Some plague champions obsess over perfecting Nurgle's supernatural plagues as a form of worship, leading their warbands into campaigns of military conquest to facilitate their ritualised experiments.

If your Crusade force includes a **DEATH GUARD CHARACTER** unit, and is not attempting to Concoct a Plague, it can attempt to Concoct a Plague.

Outbreak

When your Crusade force attempts to Concoct a Plague, you must first create the world your Crusade force will attempt to conquer. Each world has its own strengths and weaknesses for you to overcome, described by three characteristics: Fecundity, Population Density, and

Vulnerability.

These characteristics are each measured on a scale of 1 to 6, and cannot be decreased or increased beyond these values, with the exception of Population Density, which can be decreased to 0. To create your world, you can either roll a D6 for each of these characteristics, or you can choose one of the example worlds (see below), which have fixed starting characteristics. Then add up your world's characteristics to determine the world's suitability score - this does not change during the attempt, and is just referred to if you succeed in your quest to Concoct a Plague.

Hive World

Fecundity: ▰▰▰▱▱▱

Population Density: ▰▰▰▰▰▱

Vulnerability: ▰▰▱▱▱▱

Suitability Score: **10**

Agri World

Fecundity: ▰▰▰▰▰▱

Population Density: ▰▰▱▱▱▱

Vulnerability: ▰▰▰▱▱▱

Suitability Score: **10**

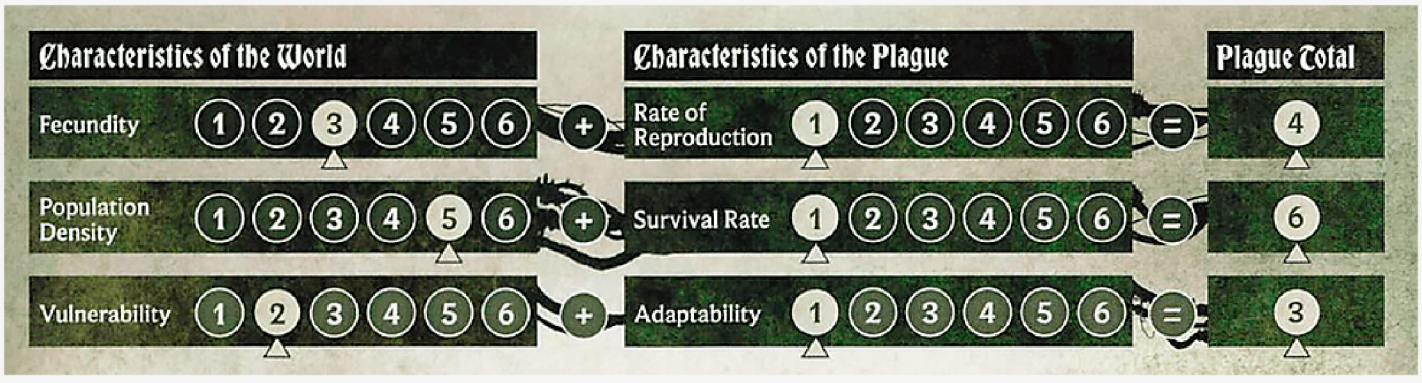

Forge World

Fecundity: ▰▰▱▱▱▱

Population Density: ▰▰▰▱▱▱

Vulnerability: ▰▰▰▰▰▱

Suitability Score: **10**

For example, if you chose a hive world, at the start of the campaign your Plague Totals would be:

Fecundity (3) + Rate of Reproduction (1) = 4

Population Density (5) + Survival Rate (1) = 6

Vulnerability (2) + Adaptability (1) = 3

After each battle, you will follow the Path of Contagion, where various factors will influence the characteristics of your world and your plague. You can also influence these characteristics using Agendas, Requisitions and even some Crusade Relics.

Your goal is to reach a total of precisely 7 for each of the three Plague Totals.

PATH OF CONTAGION

If you are attempting to Concoct a Plague, after each battle, use the following sequence.

1. **Reap the Rewards:** Apply any characteristic changes to your world and/or plague as described by any Death Guard Agenda you used in the battle.

2. **First Check for a Breakthrough:** Check if you have managed to Concoct a Plague (see Success).

3. **Cultivation:** Roll one D6, adding 2 to the result if you won the battle. On a 4+, you can choose one characteristic of your plague and add 1 to or subtract 1 from that characteristic.

4. **Counteragents:** Roll one D6: if the result is higher than the Adaptability characteristic of your plague, reduce the Vulnerability characteristic of your world by 1.

5. **Death Toll:** Roll one D6: if the result is higher than the Survival Rate characteristic of your plague, reduce the Population Density characteristic of your world by 1. Once you have done so, if your world's Population Density characteristic is lowered to 0, your quest has failed (see Failure).

6. **Final Check for a Breakthrough:** Check if you have managed to Concoct a Plague (see Success).

Suitability Score 15-18

Acceptable Offering: You can select one DEATH GUARD CHARACTER unit from your Crusade force to gain 2XP. When you next create a world when you attempt to Concoct a Plague, each time you roll a D6 to determine a characteristic of that world, you can re-roll a result of 5 or 6.

Suitability Score 11-14

Foul Bounty: You can select one DEATH GUARD CHARACTER unit from your Crusade force to gain 2XP. In addition, you can select one unit from your Crusade force to gain one Death Guard Battle Trait (it must be a Battle Trait that unit can have).

Suitability Score 7-10

A Mighty Pestilence: You can select one DEATH GUARD CHARACTER unit from your Crusade force to gain 3XP. In addition, you can claim a permanent Blessings of Nurgle reward for your Crusade force from those listed below.

Suitability Score 3-6

Malign Masterpiece: You can select one DEATH GUARD CHARACTER unit from your Crusade force to gain 5XP. In addition, you can claim a permanent Blessings of Nurgle reward for your Crusade force from those listed below.

FAILURE

If your world's Population Density characteristic is lowered to 0, your quest to Concoct a Plague fails. Similarly, you can choose at any time to abandon your quest to Concoct a Plague. In either case, you are no longer attempting to Concoct a Plague, and are free to start concocting a new one.

SUCCESS

If, when you check for a breakthrough, your three Plague Totals each equal 7, you have managed to Concoct a Plague. You gain the reward associated with your world's suitability score, as shown on the table (see above). You are no longer attempting to Concoct a Plague, and are free to start concocting a new one.

BLESSINGS OF NURGLE

Each time you gain a Blessing of Nurgle, record it on your Crusade tracker. After mustering your Crusade army for each battle, for the purposes of determining Crusade Blessings, add 1 to your total Crusade points for that battle for each Blessing of Nurgle your Crusade army has. You cannot gain the same Blessing of Nurgle more than once.

Burgeoning Fortitude

After each Crusade battle, you can ignore your first failed Out of Action test.

Eye of Nurgle

After each Crusade battle, roll one D6, adding 1 to the result if you won the battle. On a 6+, select one additional unit to be Marked for Greatness.

Fecund Fervour

After each Crusade battle, each **BATTLELINE** unit that was part of your Crusade army and survived the battle gains 2XP.

Seeping Poisons

When a unit from your Crusade force gains the Weapon Modifications Battle Honour, you can choose for that weapon to gain **[LETHAL HITS]** instead of randomly generating Weapon Modifications for that weapon.

Endless Harvest

After each Crusade battle, roll one D6: on a 4+, you gain 1 additional Requisition point.

Vile Possession

Each time you add a **VEHICLE** unit to your Crusade force, add the **DAEMON** keyword to that unit's keyword: (if it does not already have it) and that unit gains 6XP (immediately gaining the Blooded Rank); select one Battle Honour for it as normal.

ALCHEMICAL PATHOGENS

Many are the alchemical poisons and weaponised pathogens with which the DEATH GUARD anoint their weapons, the Biologus Putrifiers and Foul Blightspawn working constantly to refine them.

If your Crusade force includes any **DEATH GUARD** units, then as you progress through your Crusade campaign, you will have the opportunity to tailor the alchemical pathogens transmitted by your warriors' weaponry.

Each **DEATH GUARD** model in your Crusade force equipped with one or more Lethal Hits weapons can also gain abilities associated with your Crusade force's Pathogen. When you create your Crusade force, your Pathogen has a Duration of 1 and no abilities, but after each battle you will have the opportunity to add to or change your Pathogens Duration and abilities using Agendas and Requisitions.

BREW YOUR BATCH

Each time a rule tells you that you can Brew Your Batch, you can do one of the following:

- Add 1 to the Duration of your Pathogen (to a maximum of 5).
- Add a Property to your Pathogen, along with its associated Drawback (if any).
- Suppress a Drawback for a Property you have added to your Pathogen.

Each time you do one of these, keep a note of the current Duration of your Pathogen, which Property you have added to your Pathogen, or which Drawback you have chosen to suppress by marking the relevant sections on the Crusade tracker.

PATHOGEN POTENCY

Each time you Brew Your Batch, add up the number of marks in the Duration, Property and Drawback sections of your Crusade tracker; this is your current Pathogen Potency. Your Pathogen Potency can never exceed 7 - if your Pathogen Potency is 7, you cannot Brew Your Batch. In this instance, you can instead Tailor the Toxins (see below).

TAILOR THE TOXINS

When a rule allows you to Tailor the Toxins, reduce your Pathogen's Duration by 1, remove a Property from your Pathogen or remove suppression of a Drawback. Each time you Tailor the Toxins, you can then Brew Your Batch.

Durations

In your Command phase, you can declare that you will use your Pathogen. If you do, your Pathogen is active until you have reached the start of your Command phase a number of times equal to its Duration (or until you reach the start of your next Command phase, if your Pathogen has a Duration of 1).

Properties

While your Pathogen is active, each DEATH GUARD model in your Crusade army equipped with one or more Lethal Hits weapons also has the abilities of each Property you have added to your Pathogen.

Drawbacks

Some Properties have associated Drawbacks. While your Pathogen is active, each DEATH GUARD model in your Crusade army equipped with one or more Lethal Hits weapons also has the Drawback of each Property you have added to your Pathogen, unless you have suppressed that Drawback.

BATTLE TRAITS

When a DEATH GUARD unit gains a Battle Trait, you can use one of the tables presented here to determine which Battle Trait that unit has gained.

INFANTRY UNITS D6

When randomly generating a Battle Trait from this table, if your unit has no ranged weapons, or no ranged weapons other than Torrent weapons, if you roll a 4+, roll again until you roll a 1-3.

SPATTERFILTH

Infectious slop erupts from the bodies and weapons of these warriors with every blow. Amidst such a rain of vileness, finesse counts for little.

Each time a model in this unit makes a melee attack, you can ignore any or all modifiers to the **Hit roll**, to the **Wound roll** and to the Armour Penetration characteristic.

CHOKING MIST

A miasma swirls around these warriors, swirling outward at their unspoken bidding to leave foes temporarily blinded by gluey tears as they cough up putrid gore.

Once per battle, when this unit is selected to make a **Normal**, **Advance** or **Fall Back move**, is set up on the battlefield, or **declares a charge** it can use this Battle Trait. Until the end of the turn, enemy units cannot use the **Fire Overwatch** Stratagem to shoot at this unit.

BONE HORNS

These lances and hooks of rotted bone jut from the Plague Marines' bodies to impale unlucky foes.

Each time this unit ends a **Charge move**, select one enemy unit within **Engagement Range** of it and roll one D6 for each model in this unit that is within Engagement Range of that enemy unit: for each 5+, that enemy unit suffers 1 **mortal wound**.

STOLID BULK

Swollen into lumbering hulks of flesh and rancid muscle, these warriors absorb weapon recoil effortlessly.

Add 1 to the Ballistic Skill characteristic of ranged weapons equipped by models in this unit.

CACKLING PLAGUE MITES

Capering and jabbering, an infestation of Nurgle's plague mites tortures these warriors'foes and reveals their positions no matter how they try to hide.

Ranged weapons equipped by models in this unit have the [IGNORES COVER] ability.

QUIVERING CILIA

These foul, frond-like growths help Nurgle's servants to sense and anticipate enemy movements.

Each time you target this unit with the **Fire Overwatch** Stratagem, hits are scored on unmodified **Hit rolls** of 5+ while resolving that Stratagem.

DAEMON UNITS D6

INFECTIOUS BUBOES

When punctured, these foul swellings spray warp-pus so infectious it can rot living flesh in seconds.

Each time a melee attack is allocated to this unit, after the attacking unit has finished making its attacks, roll one D6 (to a maximum of six D6 per attacking unit): for each 5+, the attacking unit suffers 1 **mortal wound**.

SPOREBELCH

As these daemons slouch back from combat, they retch up great clouds of infectious spores that choke, bloat and suffocate pursuing foes.

Each time this unit ends a **Fall Back move**, select one enemy unit that was within **Engagement Range** of this unit at the start of the phase. Roll three D6: for each 4+, that enemy unit suffers 1 **mortal wound**.

LAMBENT TAINT

These daemons splatter their targets with leprously glowing soul-filth that marks the prey in the perceptions of other Nurglesque entities.

In your Shooting phase, after this unit has shot, select one **visible** enemy unit hit by one or more of those attacks. Until the end of the phase, each time a friendly NURGLE DAEMON model makes an attack that targets that unit, re-roll a **Hit roll** of 1.

VEHICLE UNITS D6

PLATED GROWTHS

The hull of this vehicle has built up layers of encrusted filth and scabbed matter that soak up impacts.

Each time an attack targets this unit, if the Strength characteristic of that attack is greater than this unit's Toughness characteristic, subtract 1 from the **Wound roll**.

MASTERWORK MALADIES

This vehicle ammunition is so virulent that even a near miss is enough to sicken and kill victims.

Add 6" to the Range characteristic of ranged Lethal Hits weapons equipped by models in this unit. Roll again if your unit has no ranged Lethal Hits weapons.

SKITTERING LIMBS

These repulsive insectile limbs remain within the vehicle's body until needed, at which point they slide forth from dripping burrows to hoist it high and bear it across the battlefield with a skittering gait.

Each time a model in this unit makes a **Normal**, **Advance** or **Fall Back move**, it can move through enemy models. When doing so, it can move within **Engagement Range** of such models but cannot end that move within Engagement Range of them, and any Desperate Escape test is automatically passed.

AGENDAS

If your Crusade army includes any DEATH GUARD units, you can select Agendas from those presented here.

SOW THE SEEDS OF CORRUPTION

This region is rendered a more fertile bed where plagues can grow by liberally spreading infectious foulness and spore-thick slop across the battlefield.

At the start of the battle, select one objective marker in your deployment zone, No Man's Land, and your opponent's deployment zone. At the end of your turn, for each of those objective markers, if one or more DEATH GUARD INFANTRY units from your army are within range of that objective marker, no enemy units are within range of that objective marker, and that objective marker is not seeded, that objective marker becomes seeded and you select one of those units to gain 2XP.

At the end of the battle, if units from your army seeded two objective markers, roll one D6: on a 4+, add 1 to the Fecundity characteristic of your world. If units from your army seeded three objective markers, add 1 to the Fecundity characteristic of your world instead.

UNWITTING VECTORS

Even as the foe fights your warriors, they do not realise they participate in a field test of your latest brewed plagues. Those enemies that survive against the odds are judged hard enough to unknowingly bear the infection back to their comrades elsewhere in the war zone.

At the end of the battle, roll one D6 for each enemy unit on the battlefield, adding 2 to the result if that unit is below its Starting Strength. If there are one or more results of 6+, add 1 to the Survival Rate characteristic of your plague, and select one DEATH GUARD unit from your army that was not destroyed. That unit gains 3XP.

VIRAL HARVEST

The field of war is a veritable cornucopia of ingredients for the biochemical arts of the Death Guard. By reaping this feculent harvest, they refine their supernatural maladies further.

At the start of the battle, each objective marker in No Man's Land represents a Vector Target.

At the start of your Shooting phase, select one DEATH GUARD INFANTRY unit from your Crusade army (excluding **Battle-shocked** units) that is eligible to shoot and is within range of one or more Vector Targets; that unit can attempt to exhume one of those Vector Targets. If attempted, until the end of your turn, that unit is not eligible to shoot or declare a charge. If that unit is within range of the selected Vector Target and no enemy units are within range of that Vector Target (excluding AIRCRAFT) at the end of your turn, that unit gains 1XP (to a maximum of 3XP per unit).

At the end of the battle, roll one D6, adding 1 to the result for each successful exhumation attempt: on a 7+, add 1 to the Adaptability characteristic of your plague.

VILE RESEARCH

The great work of perfecting toxins and refining weaponised alchemy never ends for the twisted scientific minds of the Death Guard. With every gruesome observation scratched on mouldering parchment in a spidery hand, another step is taken towards malevolent perfection.

Each time a DEATH GUARD unit from your army destroys an **Afflicted** enemy unit, add 1 to your research tally, and that unit gains 1XP (to a maximum of 3XP per unit).

At the end of the battle, if your research tally is 1-3, you can Tailor the Toxins. If your research tally is 4+, you can Tailor the Toxins twice.

REQUISITIONS

If your Crusade army includes any DEATH GUARD units, you can spend Requisition points (RP) on any of the following Requisitions.

TAINTED TINKERING 1RP

Amidst grime-smeared surgical slabs and alembics bubbling with clotted poisons, twisted minds have made a vile breakthrough.

Purchase this Requisition at the end of a battle, if you won that battle. You can Brew Your Batch.

FRUITS OF THE CAULDRON 1RP

Just as Nurgle is said to hunch over his cauldron of poxes, endlessly inventing and perfecting his contagious brews, so too do his worshippers follow his divine example.

Purchase this Requisition at the end of a battle. You can Tailor the Toxins.

REMISSIVE RUSE 1RP

Many warp-spawned plagues are in and of themselves daemonic, possessing enough rudimentary intelligence to know when to allow populations - and hope - to temporarily recover before striking anew.

Purchase this Requisition at the end of a battle, if you won that battle. Add 1 to the Population Density characteristic of your world.

CAREFUL CULTIVATION 2RP

Fevered activity fills the laboratoria of your plague champions as they sense pestilent perfection is almost within their grasp.

Purchase this Requisition at the end of a battle, before following the Path of Contagion. When you next follow the Path of Contagion, resolve the Cultivation step twice.

PUTRID ASCENSION 2RP

For a chosen few, the Path to Glory ends in apotheosis into a mighty and malevolent Daemon Prince of Nurgle.

Purchase this Requisition when a **DEATH GUARD CHARACTER** unit from your Crusade force (excluding **DAEMON** units) that has three Boons of Nurgle reaches the Heroic or Legendary rank. Remove that unit from your Crusade force and replace it with one **DEATH GUARD DAEMON PRINCE** or **DEATH GUARD DAEMON PRINCE WITH WINGS**.

In either case, the new unit has the same number of Battle Honours and XP as the unit it replaced. The new model can keep any Boons of Nurgle the unit it replaced had, even though Daemon models cannot normally have Boons of Nurgle. Any Battle Scars the replaced unit had are not retained. You cannot purchase this Requisition if doing so would cause you to exceed your Crusade force's Supply Limit.

WRETCHED MIGHT 2RP

Even the most accursed and unworthy ofNurgle's servants may know their god's blessings for a time; their foul might increased before their unworthy bodies burn out in the grip of such supernatural malignancy.

Purchase this Requisition before a battle. Select one **POXWALKERS** unit from your Crusade army. Generate a Battle Trait for that unit, even though **POXWALKERS** units cannot normally have Battle Traits. Until the end of the battle, that **POXWALKERS** unit has that Battle Trait.

CRUSADE RELICS

When a DEATH GUARD CHARACTER model gains a Crusade Relic, you can select one of the Relics presented here.

ARTIFICER RELICS

BOUNTIFUL CENSER

Said to use the ever-regenerating heart of a Great Unclean One as its fuel, this smog-wreathed censer emits roiling clouds of sorcerous fumes. These cause grotesque bloating and swelling within the mightiest warriors and war engines of the Death Guard, an overabundance of blessed foulness leaving them ever on the verge of violently bursting.

Each time a friendly model with the **Deadly Demise** ability within 9" of the bearer is destroyed, the bearer can use this Crusade Relic. If it does, add 2 to the roll to determine whether **mortal wounds** are inflicted by that model's Deadly Demise ability. You cannot target that model with the Putrid Detonation Stratagem.

GNAWING TOME

This malevolent book is bound in flayed maggots' hides and penned in the blood of famine-starved mutants. It drinks in cruelty, hatred, despair and pain from the battlefield, and, as it does, new passages crawl across its pages to reveal daemonic plague lore to its bearer.

Each time an enemy unit within 9" of the bearer's unit fails a **Battle-shock test**, roll one D6: on a 4+, you gain 1 Requisition point.

FOULFORGED ARMOUR

Fashioned by witchsmiths in an unclean forge borne upon the back of a colossal plague toad, this armour is said to embody the timeless resilience of the Plague Planet itself.

The bearer has a Save characteristic of 2+.

ANTIQUITY RELICS

ORB OF DECAY

Scores of terrible maladies are stored in this orb, collected from battlefields and conquered worlds the galaxy over. Its carrier can unleash them all at the right moment to overwhelm their enemies.

Once per battle, when you target the bearer's unit with the Explosives Stratagem, the bearer can use this Crusade Relic. If they do, until that Stratagem has been resolved, add 2 to the result of each dice you roll for that Stratagem.

CASKET OF CORRUPTION

No larger than an Imperial nobleman's snuff box, this nightmarish artefact contains a pale green pearl said to have congealed in Nurgle's own cauldron. The hyper-contagious energies it emits can wither forests, curdle oceans and rot entire worlds if concealed in the right place and given time to work.

The bearer has the **Deadly Demise** D3 ability. In addition, at the end of the battle, if the bearer's unit is wholly within your opponent's deployment zone, when you next follow the Path of Contagion, you can skip the Counteragents step.

LEGENDARY RELICS

PUTRID HEART

This parasitic daemon-organ squirms into its host's body and melds with its biology before pumping corruption through every cell. One so blessed becomes an avatar of contagion made manifest, a seething nexus of infectious foulness whose presence few can long survive.

The bearer has the **Feel No Pain 5+** ability. In addition, add 6" to the **Contagion Range** of models in the bearer's unit.

CRUSADE BADGES

When your Crusade force accomplishes specific long-term goals, you can earn the Crusade badges shown below, representing your warriors' successes over many battles.

PLAGUE CHAMPION

Your rancid star is on the rise. Champions of order and purity have fallen beneath your putrid blade, their armies scattered in despair before your inexorable advance. The plagues of Nurgle spread all the faster wherever you take to the battlefield, encouraged by the dark alchemy of your followers, lent virulence by the horror of your victories. Your feet are set firmly on the Path to Glory. Your future is one of glorious apotheosis or a descent into festering spawndom.

- You have a Pathogen Potency of two or more.
- You have won two or more battles.

CHOSEN OF NURGLE

Sevenfold are your blessings, for you serve Grandfather Nurgle and the Death Lord Mortarion well. Entire worlds have been transformed into putrid plague beds by your efforts. Planetary systems have soured in the grip of disease and misery, crushed beneath your armoured tread. With every victory, you court the mightiest blessings of the Plague God and draw closer to final triumph or utter damnation.

- You have concocted one or more Plagues.
- You have won four or more battles.
- One or more **CHARACTER** units from your Crusade force have reached the Heroic rank.

DISEASED DAEMON LORD

Ultimate glory is yours, for great Nurgle has rewarded you with daemonic immortality. Your name has become a byword for sickness and suffering across entire galactic sectors. Yet even now, there is more to do, for the war will not be won until the stars themselves rot and fall, spoiled from the heavens. With your newfound supernatural power, of course, even this mighty goal does not seem beyond your reach.

- You have concocted two or more Plagues.
- You have a Pathogen Potency Score of seven.
- You have won ten or more battles.
- One or more **CHARACTER** units from your Crusade force have reached the Legendary rank.

LORD OF THE DEATH GUARD

Diseased Influence: Just after an enemy unit ends a **Normal**, **Advance** or **Fall Back move** within 8" of a friendly DEATH GUARD unit that is within 6" of this model, if that DEATH GUARD unit is not within **Engagement Range** of one or more enemy units, it can make a **Normal move** of up to 5".

Boon of Death: In the Fight phase, when a friendly DEATH GUARD unit within 6" of this model is selected as the target of an attack, this model can use this ability. If it does, until the end of the phase, each time a model in that DEATH GUARD unit is destroyed by a melee attack, if that model has not fought this phase, roll one D6. On a 2+, do not remove it from play; that destroyed model can fight after the attacking unit has finished making its attacks, and it is then removed from play.

Inflamed Reprisal: In your opponent's Shooting phase, when a friendly DEATH GUARD unit within 6" of this model is selected as the target of an attack, this model can use this ability. If it does, after the attacking unit has finished making its attacks, that Death Guard unit can shoot as if it were your Shooting phase, but when resolving those attacks, worsen the BS characteristic of that attack by 1 and it can only target that enemy unit (and only if it is an eligible target).

- This model's heavy slugger can be replaced with 1 rothail volley gun.

CORE ABILITIES	Deadly Demise D3
ARMY RULES	Nurgle's Gift (Aura)

ABILITIES

Spore-laced Shock Waves: In your Shooting phase, each time you select a target for this model's Plagueburst mortar, roll one D6 for the target unit and every other enemy unit within 3" of the target unit, adding 1 to that roll if the unit being rolled for is **Afflicted**. On a 6+, the unit being rolled for is struck by spores; after resolving all of this model's attacks against the target unit, each unit struck by spores suffers D3 **mortal wounds**.

UNIT COMPOSITION

- 1 Plagueburst Crawler

This model is equipped with: 2 entropy cannons; heavy slugger; Plagueburst mortar; armoured tracks.

YOUR 1ST TO 2ND UNITS COST

1 model 170

YOUR 3RD+ UNIT COSTS
