ARMY RULES

COMBAT DOCTRINES

The Space Marines draw upon the combat doctrines of the Codex Astartes as they flow through each phase of battle: first hammering the enemy with devastating firepower, then raking them with close-ranged volleys while manoeuvring to deliver a final, crushing assault.

At the start of your Command phase, you can select one **combat doctrine** listed below. If you do, that **combat doctrine** is active for friendly ADEPTUS ASTARTES units with this ability until the start of your next Command phase.

ASSAULT DOCTRINE

When this unit is selected to make an **advance move**, that **advance move** does not prevent this unit from being **eligible to declare a charge**.

DEVASTATOR DOCTRINE

This unit's ranged attacks have [ASSAULT].

TACTICAL DOCTRINE

When this unit is selected to make a **fall-back move**, that **fall-back move** does not prevent this unit from being **eligible to shoot** and **eligible to declare a charge**.
Unless otherwise stated:

- You can only select each **combat doctrine** once per battle.
- Only one **combat doctrine** can be active for each unit. If a rule makes a **combat doctrine** active for a unit, any **combat doctrine** previously active for that unit is no longer active for that unit.

TRANSHUMAN STRATEGIST

Those Space Marines who rise to positions of command are exceptional strategists and tacticians.

At the start of the battle round, if a model with this ability is your WARLORD, gain 1CP.

LIBRARIUS

Space Marine Librarians advance through the ranks of Lexicanum, then Codicier, then Epistolary, their psychic might and repertoire of powers increasing with their hardwon experience.

ADEPTUS ASTARTES PSYKER units with this ability have a **psyker level** of 1 or higher, specified in that unit's abilities. Each **psychic ability** has a **psychic level** of 1 or higher, specified in that ability's name.

In a battle round, a friendly ADEPTUS ASTARTES PSYKER unit can use a number of **psychic abilities** whose total **psychic level** does not exceed that PSYKER unit's **psyker level**.

> ***Example:*** *In a battle round, a* ***psyker level 3*** PSYKER *unit could use three* ***psychic level 1*** *abilities, or one* ***psychic level 1*** *ability and one* ***psychic level 2*** *ability, or one* ***psychic level 3*** *ability.*

Space Marine Chapters

The many Chapters of Space Marines are spread perilously thin across the Imperium's countless war zones. Though it is not unheard of for them to fight alongside one another on the same battlefield, far more commonly their strike forces operate alone to defeat seemingly impossible odds.

If an ADEPTUS ASTARTES unit has a second Faction keyword on its datasheet, that Faction keyword is the name of that unit's Chapter. For example, Marneus Calgar has both the ADEPTUS ASTARTES and ULTRAMARINES Faction keywords,and is therefore from the Ultramarines Chapter.

You cannot include units from more than one Chapter in your army.

SPECIAL MOVE TYPES

The following are special **move types** that certain or all of your units are eligible to make.

DETACHMENT RULES

MISSION TACTICS

Thousands of years of collated strategic data and hard-won combat experience have provided the Deathwatch with the ultimate battlefield tactics to combat almost any foe.

FUROR TACTICS When the enemy horde grows close, the Deathwatch will be tasked with the decimation of their core. Aiming not for clinical kills but for maximum destruction over a wide area, they tear the heart from the enemy army.

MALLEUS TACTICS When the giants of war lumber forth, the Deathwatch will adopt Malleus tactics. Even the largest behemoth has a weak point, and the archives of the Deathwatch number them all.

PURGATUS TACTICS By adopting Purgatus tactics, the Deathwatch focus their deadly ire upon the commanders of the enemy host, assassinating them one after another with pitiless head shots and killing thrusts of the blade.

Friendly KILL TEAM units with this ability have the following abilities:

Furor Tactics: If the **devastator doctrine** is active for your unit, your unit's attacks have [SUSTAINED HITS 1].

Malleus Tactics: If the **tactical doctrine** is active for your unit, your unit's attacks have [LETHAL HITS].

Purgatus Tactics: If the **assault doctrine** is active for your unit, your unit's attacks that target an enemy unit within 9" of this unit have [PRECISION].

RESTRICTIONS: Your army can include ADEPTUS ASTARTES DEATHWATCH units, but it cannot include any ADEPTUS ASTARTES units drawn from any other Chapter.

With the exception of ~~KILL TEAM CASSIUS~~ (see Legends: Agents of the Imperium), your army cannot include any AGENTS OF THE IMPERIUM DEATHWATCH units.

ENHANCEMENTS

THE THIEF OF SECRETS ..... 10 PTS

The Thief of Secrets is a blade whose machine spirit has an unquenchable thirst for knowledge. It has tasted the vitae of countless alien races, absorbing those liquids through auto-sanctified sanguinator-channels and codifying them through the honeycombed array of logicum cells within. The biological secrets of many xenos races have thus been laid bare, allowing the blade's user to modulate its power field, the better to slice through chitinous armour, rupture xenoform organs and burn out alien nervous systems.

WATCH MASTER/**CAPTAIN** model only. This model has the following weapon:

RANGE	A	WS	S	AP	D
The Thief of Secrets					
Melee	6	2+	6	-3	2

OSSEUS KEY (AURA) ..... 20 PTS

The ancient clavis known as the Osseus Key is said to be the most powerful of its kind. Where other such devices are made from sanctified platinum, the Osseus Key is made from the hand and finger bones of deceased Imperial Fists heroes that fought in the Horus Heresy, scrimshawed with inhuman care and imbued with the fiercest machine spirits of the age. No portal can bar its bearer from entry, and no xenos machine can stand before his wrath.
