Imperial Knights

Often outnumbered but never outgunned, Imperial Knights are miracles of the Dark Age technology. They can annihilate entire regiments of the foe in a single salvo, or else wield industrial-scale close-combat weaponry that can tear down a fortress gate or flip a battle tank with a single blow. There are numerous patterns of Knight, each of which lend themselves to broad strategic roles, such as scouting or fire support.

INTRODUCTION

Welcome to the rules section of *Codex: Imperial Knights*. Whether forging your own tales of glory and infamy with narrative play or pitting yourself against your opponents in nail-biting matched play contests, the following present all the rules you will need to bring your Imperial Knights collection to life on the tabletop.

These include Detachment rules that Imperial Knights armies can use, along with the Imperial Knights army rule - Code Chivalric - which is common to many of your units. This section also includes datasheets for Imperial Knights units; you can find out more about how to use datasheets here.

Below you will find several IMPERIAL KNIGHTS Detachments you can select from, as described in the Core Rules (see the Select Detachment rules step). If you are playing a Crusade battle, see the equivalent step in the Mustering a Crusade army section of the main Crusade rules. Each Detachment is a themed fighting force that focuses on one particular combat style employed by the Imperial Knights - the rules they include are as follows:

1 DETACHMENT RULE

The Detachment rule listed here will apply to either your whole army or to particular units within it. If any additional restrictions or benefits apply to a Detachment, they will be listed here. This can include additional keywords some of your units may gain.

2 ENHANCEMENTS

When mustering your army, your chosen Detachment enables you to upgrade CHARACTERS using the Enhancements listed here, as described in the Core Rules (see the Select Units step). If you are playing a Crusade battle, you can instead use the Renowned Heroes Requisition to give your CHARACTERS Enhancements, as described in the main Crusade rules.

3 STRATAGEMS

Your chosen Detachment gives you access to the Stratagems listed here in addition to the Core Stratagems listed in the Core Rules. During the battle, you can spend Command points (CP) to use these Stratagems. You can find out more about how to use Stratagems **here**.

ARMY RULES

CODE CHIVALRIC

Imperial Knights fight by a stringent set of codes. In addition to defeating the foe, honour must always be upheld.

If your Army Faction is **IMPERIAL KNIGHTS**, at the end of the Read Mission Objectives step, you must determine your army's Oath for the coming battle. An Oath consists of two parts - one Deed and one Quality. There are three options for each part, shown below.

To determine your army's Deed, you can either select one Deed or you can randomly select one Deed by rolling a D6 and consulting the relevant table below. The selected Deed will describe what needs to be achieved in order to complete that Deed.

To determine your army's Quality, you can either select one Quality or you can randomly select one Quality by rolling a D6 and consulting the relevant table below. Until the end of the battle, the ability described in the Quality selected applies to all models in your army with this ability.

The first time your selected Deed is completed your Oath is fulfilled and, until the end of the battle, your army becomes Honoured and you gain 2CP, or 3CP if you randomly selected your Deed and/or Quality (CP gained in this way are an exemption to the Core Rules that limit the maximum number of CP you can gain per battle round to 1).

Deed	D6
We vow to lay low the tyrant... At the start of the battle, select one **CHARACTER** model in your opponent's army. This Deed is completed at the end of a turn if that **CHARACTER** is destroyed.	1–2
We swear to reclaim the realm... This deed is completed at the end of your opponent's turn if you control more objective markers than your opponent.	3–4
We pledge to reap a great tally... This deed is completed at the end of the battle round if the number of enemy units destroyed this battle round is greater than the battle round number even if those units are subsequently returned to the battlefield (for example, two destroyed enemy units in the first battle round).	5–6

Quality	D6
...with our martial valour risen over all. Each time this model is selected to shoot or fight, you can re-roll one **Hit roll** and you can re-roll one **Wound roll**.	1–2
...and we are eager for the challenge. Add 2" to this model's Move characteristic and add 1 to **Advance** and **Charge rolls** made for this model.	3–4
...yet shall our legacy be unsullied. Improve this model's Objective Control characteristic by 2 and its Leadership characteristic by 1.	5–6

BONDSMAN

Those honoured to serve a great hero do so unto death.

Some **IMPERIAL KNIGHTS** models have a Bondsman ability, tagged with the word 'Bondsman'. In your Command phase, one or more models from your army with a Bondsman ability can use that ability. For each one that does, select one friendly **ARMIGER** model within 12" of that model (you cannot select an **ARMIGER** model that is already being affected by a Bondsman ability). Until the start of your next Command phase, that **ARMIGER** model is affected by that Bondsman ability.

SUPER-HEAVY WALKER

Imperial Knights tower over the battlefield, striding over lesser warriors to eagerly engage the foe.

Each time a model with this ability makes a **Normal**, **Advance** or **Fall Back move**, it can move through models (excluding **TITANIC** models) and sections of **terrain features** that are 4" or less in height. When doing so:

- It can move within **Engagement Range** of enemy models, but cannot end that move within Engagement Range of them.
- It can also move through sections of terrain features that are more than 4" in height, but if it does, after it has moved, roll one D6: on a 1, that model is **Battle-shocked**.

FREEBLADES

Freeblades often wander the galaxy, aiding the armies of the Imperium against the xenos and heretics who threaten the Emperor's realm.

If every model in your army has the **IMPERIUM** keyword, you can include either one **TITANIC IMPERIAL KNIGHTS** model or up to three **ARMIGER** models in your army, even if they do not have the Faction keyword you selected in the Select Army Faction step. None of these models can be your **WARLORD**, and they cannot be given Enhancements.

VALOURSTRIKE LANCE 2DP

To crusade as part of a lance of Knightly companions is to be inspired to heights of noble heroism and feel the surge of honour that flows through the Throne Mechanicum. Valourstrike Lances epitomise the bold gallantry of Imperial Knights and the unbreakable fellowship that binds them. Their Noble warriors and loyal squires thunder into battle like an iron-shod storm. Barrages of unremitting firepower herald their assault, bolts of energy and clusters of heavy ordnance lancing out to punish the dishonourable foe. The Knights do not slow for a moment; their enemy deserves no such sufferance. The speed of their long strides carries the Noble companions into the foes' holdouts. With the monumental power at their command, valorous groups of Knights lay waste to one swathe of enemies after another. Theirs is a selfless strength that shields and inspires their fellow Knights. It is a thunderous power that sees them punch through defensive lines, artillery emplacements and desperate counterstrikes by the foe until nothing but ruin is left in their wake.

DETACHMENT RULE

BOLD GALLANTRY

With their companions beside them - kin of their blood, allies in honour - Knightly Nobles are inspired to near-reckless heroism. Their fervour spreads through neural interfaces to reach the machine spirits of their towering Knight suits. The Knights' power cores flare with motive energy. Target stabilisers sputter into life, glaring balefully at the foe. Servo-motors and fibre bundles thrum, powering the Nobles' steeds to a thunderous speed, such that the ground trembles.

Each time an **IMPERIAL KNIGHTS** unit from your army Advances, until the end of the turn, ranged weapons equipped by **IMPERIAL KNIGHTS** models from your army have the **[ASSAULT]** ability.

GATE WARDEN LANCE

2DP

The forebears of Knightly Nobles secured their sprawling citadels through Old Night and whispered advice from those times still haunts the oldest Thrones Mechanicum. For generations since, Gate Warden Lances of Knights have thrown back xenos, heretics and mutants not only from their own walls but from those on worlds across the galaxy. Whether a physical revetment exists to guard or not, the Nobles know their duty. They treat the battlefield as their walled realm, with themselves as its bastions. Gigantic Dominus-class Knights anchor defensive positions, hurling murderous salvoes at encroaching enemies. Bondsmen piloting swift Armigers stand ready to lope forwards and stem encirclements of the Knights' lines. Knights Crusader scythe down infantry besieging their chosen embrasures while Knights Defender stride into line to bolster positions with thrumming void shields. Should the enemy attempt to breach the Knights' lines, the Nobles sally forth in a thunderous countercharge, challenges blaring from war horns as they dam the tide.

DETACHMENT RULE

DAUNTLESS DEFENDERS

With a rigid, strategic intuition born of the unyielding fortifications defended by their ancestors, the Nobles of a Gate Warden Lance hold their ground with an arrogant superiority. While even one defends the marches of their claimed realm, they will fight to the ends of their honour to hurl back the besiegers.

At the start of the first battle round, select two **objectives** to be your foundations. Place a circular 40mm foundation marker in each one. When you draw a line from any part of one your foundation markers to any part of the other, if any part of a model's base (or any part of a model's hull, for a model without a base) crosses that line, that model's unit is said to be on your defensive line.

While an IMPERIAL KNIGHTS unit from your army is on your defensive line, that unit has the following ability:

Against the Horde: Each time a model in this unit makes an attack that targets a **visible** enemy unit, you can ignore any or all modifiers to the **Hit roll**, and weapons equipped by models in this unit have the [SUSTAINED HITS 1] ability.

QUESTORIS COMPANIONS

3DP

The legendary deeds of groups of Knightly champions are known across the Imperium. Epic lays have been inspired by crusading lances of a household's greatest warriors, isolated bands of Knights who have fought their way to victory and honoured fellowships of Freeblades oathed to fight in chivalrous companionship until death claims them. Bonded by vows of honour, these Questoris Companions marshal their strength, their courage and the incredible power of their titanic Knight suits to undertake heroic feats of epic gallantry to achieve their quest. Individual Knights hold back armoured columns in glorious acts of selflessness to guard their companions' flanks. Others wade alone into overwhelming odds, slamming enemy battle tanks through the air and crushing infantry underfoot. The most threatening of the foe are singled out for thunderous duels, and their humbling is a terrifying blow to enemy morale. With a rigid notion of their quest's righteousness, the companions drive onwards in a ferocious display of titanic might.

DETACHMENT RULE

HEROES OF LEGEND

To those who quest for honour - in service to their liege, to avenge atrocities, to wipe clean the stain of disfavour - there can be no end. The Imperium's foes are legion, an endless horde from which more arise. As one quest ends, another always begins.

At the start of your turn, if your current Oath is fulfilled, determine an additional Oath as described here, with the exception that you cannot select a Deed or Quality you have already selected (if you are randomly selecting the Deed and/or Quality and roll any result that you have already selected, select a Deed or Quality you have not already selected instead). If you cannot determine an additional Oath because you have already selected each Deed and each Quality, do not determine an additional Oath.

The Qualities from Oaths you have fulfilled continue to apply to all models in your army with the Code Chivalric ability. When the Deed for an additional Oath is completed, you instead gain 1CP, regardless of how you selected the Deed or Quality.

VALOUR'S REWARD

With every deed sealed with honour, every clarion call heralding a duty met, a champions spirit is strengthened and their ardour restored.

The Enhancements shown below can become expended. You cannot use such Enhancements while they are expended. Each time you fulfil your Oath, each expended Enhancement is no longer expended.

UNIQUE: ARMIGERS

SPEARHEAD-AT-ARMS

2DP

When deployed in large numbers, the swift and agile Armiger-class Knight suits can outmanoeuvre most foes. They strike and withdraw on simultaneous fronts to cut apart more unwieldy armies. Deployed as a Spearhead-at-Arms, meanwhile, and leashed to their Noble masters' stern wisdom, their loyal conditioning and rapid adoption of complex strategies enable them to eviscerate any enemy. With loping strides, the lead Armigers fan out as a swift vanguard. They devastate enemy scouts and flush war engines into the sights of their lords and ladies. Banners of Armiger Helverins stalk into firing positions like towering assassins, spitting death into assigned targets of heavy infantry or snatching grav-tanks from the sky in blazing fireballs. Armiger Warglaives pounce on enemy fire points or ambush enemy assault formations, their reaper chain-cleavers howling as they chew through armour. They are their masters' hounds, shield-bearers and heavily armed retainers in one, galvanised into deadly coordination through honoured service.

DETACHMENT RULE

KNIGHTLY TEACHINGS

Knightly Nobles are exalted paragons of honour who uphold the tenets of the Code Chivalric and the glorious histories of their household. Through stern teachings and heroic tales, and no less their own deeds, they exemplify the virtues which Bondsmen aspire to emulate. It is not only in courtly life, upon the practice fields and during thrilling hunts that a Nobles squires and retainers cleave to their duty, but also in the fiery heart of every battle. There such teachings are tested as never before, and also find their most lauded expressions.

Each time a model from your army uses its **Bondsman** ability, if no other model from your army has used that Bondsman ability that turn, you can select up to three friendly ARMIGER models (instead of one) within 12" of that model, or within 15" of that model while your army is Honoured (you still cannot select a model that is already being affected by a Bondsman ability). Until the start of your next Command phase, those models are affected by that Bondsman ability.

CRUSADE RULES

In this section you'll find additional rules for playing Crusade battles that are bespoke to IMPERIAL KNIGHTS units. You can find out more about Crusade armies in the main Crusade rules.

This section contains the following rules:

PILOT AND KNIGHT

Whether they fight under the banners of the Questor Imperialis, the Questor Mechanicus or as Freeblades, those who pilot Knight suits are bold and noble warriors for whom honour is all. These rules allow you to follow the progression of your pilots as they complete Chivalric Quests and ascend through the Levels of Honour of their chosen Mastery, acquiring benefits befitting champions of the Imperium.

AGENDAS

IMPERIAL KNIGHTS armies can attempt to achieve unique Agendas in addition to those found in other publications. These represent the factions unique goals and their particular methods of waging war.

REQUISITIONS

IMPERIAL KNIGHTS armies have access to a number of bespoke Requisitions in addition to those found in other publications.

BATTLE SCARS AND BURDENS

Themed to the warriors that make up an Imperial Knights household, these Battle Scars represent dishonourable burdens that units from your Crusade force may come to bear.

CRUSADE RELICS

In addition to the Crusade Relics presented in other publications, Imperial Knights models can claim one of the Crusade Relics found here.

CRUSADE BADGES

Here you will find three Crusade Badges representing goals you can set yourself when campaigning with your Crusade force. Once one is achieved, you could set yourself a new goal, or take the opportunity to start a new Crusade force.

PILOT AND KNIGHT

Tracking the Crusade progress of Imperial Knights works slightly differently to other factions. In addition to tracking an Imperial Knights unit's progress using the Crusade card found in the main Crusade rules, you must use the Pilot Crusade card.

Each time you add an **IMPERIAL KNIGHTS** unit to your Crusade force (excluding **EPIC HEROES**), you must also generate a pilot to assign to each **IMPERIAL KNIGHTS** model in that unit. Each time you generate a pilot, you must select their Sworn Alignment: Questor Imperialis, Questor Mechanicus or Freeblade. When mustering a Crusade army, you cannot include Questor Imperialis and Questor Mechanicus pilots in the same army. Add the pilot to your Order of Battle, with a points value of 0, and fill in a Pilot Crusade card for that pilot.

A NOBLE'S DUTY

Over the course of a campaign, pilots can gain abilities (called Masteries) and burdens. A pilot's abilities and burdens apply to the **IMPERIAL KNIGHTS** unit it is assigned to.

VACANT KNIGHTS AND UNSEATED PILOTS

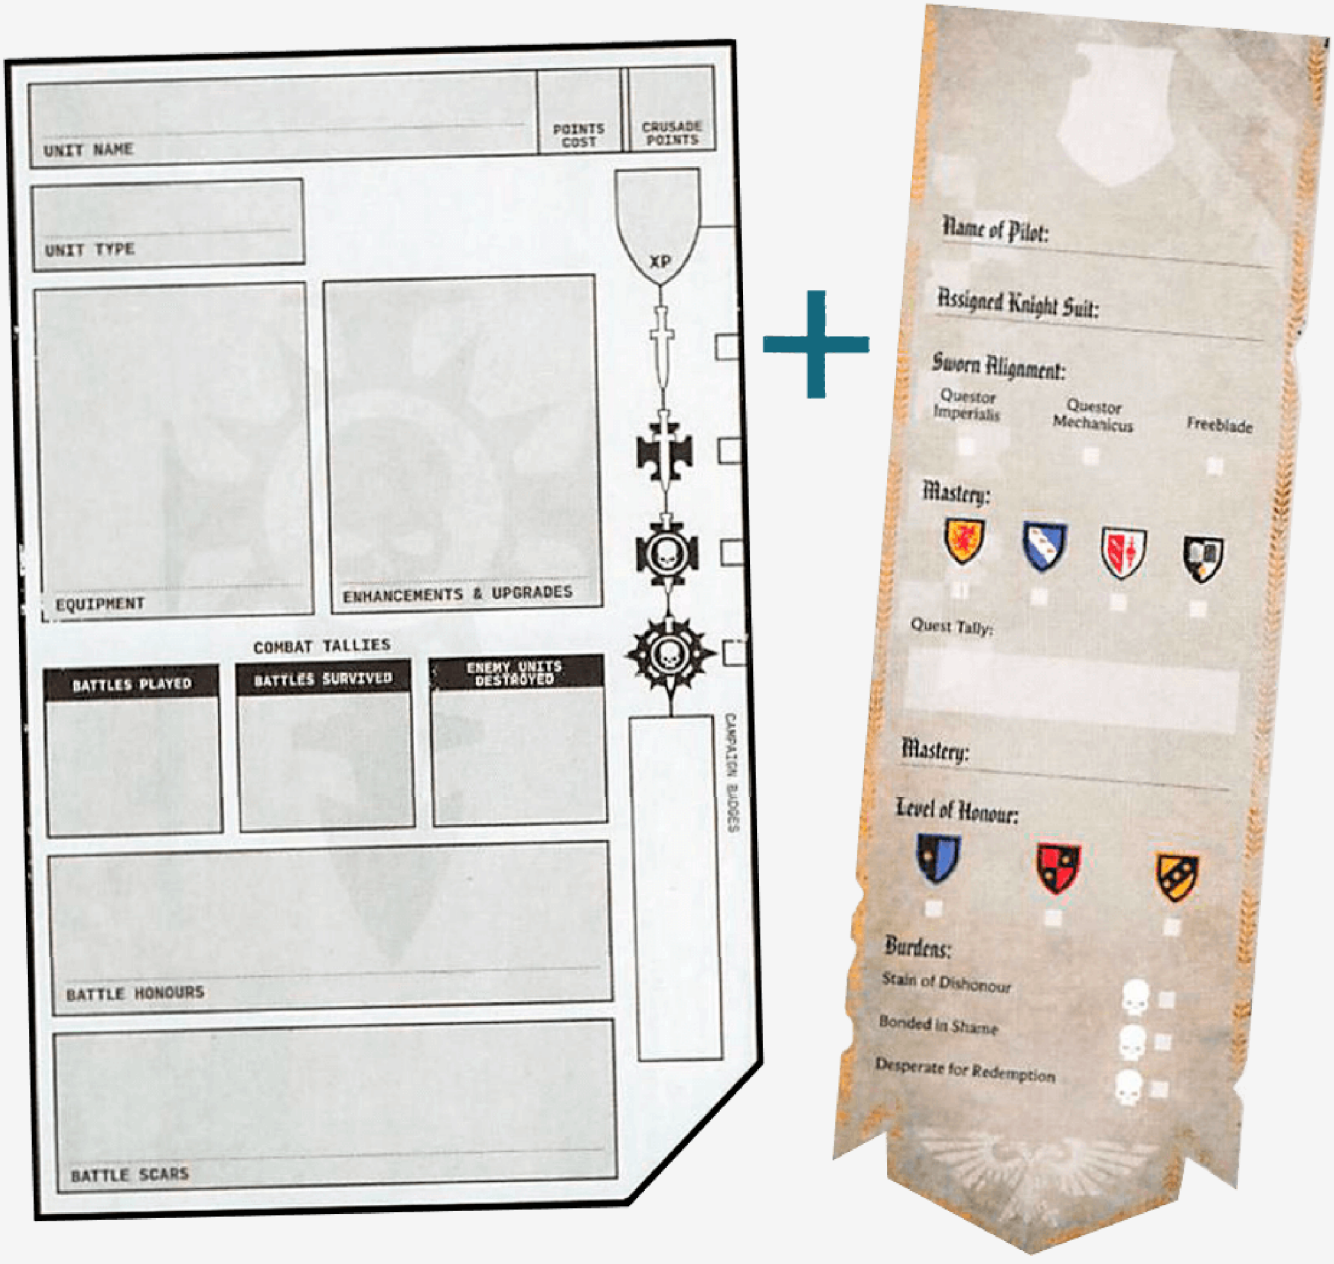

During your Crusade, you may come across situations where one or more **IMPERIAL KNIGHTS** models from your Crusade force are not assigned to a pilot: these models are said to be vacant. You cannot include **IMPERIAL KNIGHTS** units that include any vacant models in your Crusade army. When you have a vacant **IMPERIAL KNIGHTS** model in your Crusade force, you can either assign it to an unseated pilot, or you can generate a pilot for that unit.

You may come across situations where one or more pilots have no assigned **IMPERIAL KNIGHTS** model: these pilots are said to be unseated. When you have an unseated pilot, if you have a vacant **IMPERIAL KNIGHTS** model in your Crusade force, you can assign that **IMPERIAL KNIGHTS** model to that pilot, or when you add a new **IMPERIAL KNIGHTS** unit to your Crusade force, you can assign a model in that unit to that pilot, instead of generating a new pilot for that model. If that pilot has a Virtuous Level of Honour or Mastery of the Clarion, you cannot assign an **ARMIGER** model to that pilot.

During your Crusade, there may be opportunities to reassign a pilot to a different **IMPERIAL KNIGHTS** model. To do so, select a pilot to become unseated and their **IMPERIAL KNIGHTS** model to become vacant. Then select an **IMPERIAL KNIGHTS** model: That **IMPERIAL KNIGHTS** model is assigned to that pilot. If that **IMPERIAL KNIGHTS** model was assigned to another pilot, that other pilot is unseated.

LOST TO LEGEND

If an **IMPERIAL KNIGHTS** unit is removed from your Order of Battle, you can choose to retain its pilot: that pilot is unseated. You can choose to remove a pilot from your Order of Battle at any time.

CHIVALRIC QUESTS

To those who pilot Knight suits, their word is their honour. To swear an oath or vow, whether to the lords of a Knightly household or the generals and priests of their allies, is to be bound to the task until its completion, or until their death in the attempt, lest they fall into dishonour.

Such quests may involve slaying a sworn enemy, reclaiming lost Imperial territory, purging xenos infestations or seeking out lost knowledge. They will take the sworn pilot and their kinsmen far, from frozen death worlds to the sprawling metropolises of burning hive worlds.

When mustering your Crusade army, if you have no active Chivalric Quest and your **WARLORD** is an **IMPERIAL KNIGHTS** model, you can swear your Knights to one of the following Chivalric Quests:

- To Strike Down the Unclean Behemoths
- To Raise High the Pennants of Victory
- To Stamp Out the Champions of Dishonour
- To Secure the Realm

Make a note of your selection on one of your Pilot and Knight Crusade cards (we recommend using your **WARLORD**'s). During your next three battles, keep a tally of how many times you achieve the objective of your chosen Chivalric Quest (see below).

Once you have fought three battles, consult the Tally Rewards section of your chosen Chivalric Quest. You gain the number of Chivalric points stated based on the number of tally marks you accrued during those battles, which can then be allocated to your pilots (see below). If you have fewer than four tally points, your Crusade force is said to be Dishonoured instead.

Dishonoured

During your crusade, your Crusade force may fail to complete a Chivalric Quest and become Dishonoured. Similarly, before a battle, when mustering your Crusade army, you can choose to abandon your current Chivalric Quest. If you do, your Crusade force is said to be Dishonoured, and you cannot swear your Knights to a new Chivalric Quest until you complete the Death Before Dishonour Agenda during a battle.

CHIVALRIC POINTS

During the Update Crusade Cards step, you can allocate any Chivalric points you have gained to your pilots.

The first time a pilot is allocated Chivalric points, you must select a Mastery for them. Accruing further Chivalric points will improve a pilot's Level of Honour within that Mastery, unlocking the associated benefits.

Below, the Chivalric points each Chivalric Quest can award are presented as shown on the left.

To Strike Down the Unclean Behemoths

The slaughter of hulking nightmares is a noble aspiration. It harks many back to the Knights' origins, defending their keeps from vile beasts.

While this Chivalric Quest is active, add 1 to its tally each time a **MONSTER** or **VEHICLE** unit is destroyed by an attack made by an **IMPERIAL KNIGHTS** model from your Crusade force. For each of those detroyed units that was **TITANIC**, you gain 1 additional tally mark.

Tally Rewards

4-6	7-10	11+
1	2	3

To Raise High the Pennants of Victory

Ingrained in all Knights, even those with no household, is the drive to proudly plant their heraldic blazons upon the ruin of their enemies.

While this Chivalric Quest is active, at the end of each battle, add 1 to its tally for each objective marker you control. For each of those objective markers that is within your opponent's deployment zone, you gain 1 additional tally mark.

Tally Rewards

4-6	7-10	11+
1	2	3

To Stamp Out the Champions of Dishonour

Nobles never forget - nor forgive - the generals, priests, witches and champions who wrong them. The Code Chivalric demands their death.

While this Chivalric Quest is active, add 1 to its tally each time a **CHARACTER** unit is destroyed by an attack made by an **IMPERIAL KNIGHTS** model from your Crusade force. For each of those detroyed units that was your opponent's **WARLORD**, you gain 1 additional tally mark.

Tally Rewards

4-6	7-10	11+
1	2	3

To Secure the Realm

The dark and infested reaches of the galaxy, so Knightly teachings reveal, yearn for liberation, even if it must be bought with blood.

While this Chivalric Quest is active, al the end of each battle, add 1 to its tally for each of the following conditions you satisfy: one or more **IMPERIAL KNIGHTS** units from your Crusade army are within 6" of the centre of the battlefield; no enemy units are within 6" of the centre of the battlefield; one or more Imperial Knights units from your Crusade army are wholly within your opponent's deployment zone.

Tally Rewards

4-6	7-10	11+
1	2	3

MASTERIES

The first time a pilot is allocated one or more Chivalric points, select one Mastery for them from those below (some Masteries are restricted to pilots with a specific Sworn Alignment or an assigned **TITANIC IMPERIAL KNIGHTS** model). You can only select a Mastery that no other pilot from your Crusade force has. Track each pilot's Mastery progress on their Pilot Crusade card. There are three levels, each with an associated benefit, within each Mastery. Compare a pilots allocated Chivalric points with their Mastery to determine which level they are at, and which corresponding benefit they have.

You cannot assign more than 6 Chivalric points to a pilot whose assigned **IMPERIAL KNIGHTS** model is an **ARMIGER**.

Add 1 to an **IMPERIAL KNIGHTS** unit's Crusade points while the pilot it is assigned to has a Mastery.

After both players have deployed their armies, you can redeploy this unit and one friendly IMPERIAL KNIGHTS unit.

Mastery of Condemnation

These Nobles act as foci for Knightly ire, bellowing a litany of the worst treachery or ignobility amongst the dishonourable foe. They ruthlessly guide their kin's firepower, drawing upon their status within the hierarchy of bloodlines or as a rallying hero amongst exiled companions to see their hated foes annihilated.

A DUTY OF CENSURE

Once per battle, at the start of your Shooting phase, select one enemy unit within 18" of and **visible** to this unit. Until the end of the phase, each time an IMPERIAL KNIGHTS unit from your Crusade army makes an attack that targets that unit, you can re-roll a **Hit roll** of 1.

NOBLE ORATOR

Once per battle, at the start of your Shooting phase, select one enemy unit within 18" of and visible to this unit. Until the end of the phase, each time an IMPERIAL KNIGHTS unit from your Crusade army makes an attack that targets that unit, you can re-roll a Hit roll of 1 and you can re-roll a **Wound roll** of 1.

HIGH DENUNCIATOR

Once per turn, at the start of your Shooting phase, select one enemy unit within 18" of and visible to this unit. Until the end of the phase, each time an IMPERIAL KNIGHTS unit from your Crusade army makes an attack that targets that unit, you can re-roll a Hit roll of 1 and you can re-roll a Wound roll of 1.

Mastery of Joust

Questor Imperialis pilots only

Few things can bring such elation to a Knight pilot as a full tilt charge, driving their armoured steed onwards, and smashing into the foe like a meteor. This Noble is an expert at assessing strategic cartoliths and coordinating their forces' advance. Such eager warriors push their Knight suits to their limits, they and their steed's machine spirit goading each other into one aggressive advance after another.

LANDSTRIDER

Add 2" to this unit's Move characteristic.

LANCE OF TERRA

Add 2" to this unit's Move characteristic. This unit is eligible to shoot in a turn in which it Advanced.

FOE'S BANE

Add 2" to this unit's Move characteristic. This unit is eligible to shoot and declare a charge in a turn in which it Advanced.

Mastery of Mechanisms

Questor Mechanicus pilots only

This. Knightly pilot is attended within their keep by many Sacristans sworn to their service. Through their advice, and with their ritualised ministrations, the Noble has an intensely strong bond with the machine spirit of Knight suits and is capable of entreating them to surge once more with vengeful strength despite the hurt done to them by the foe.

IRON BLOODLINE

In your Command phase, you can select one friendly IMPERIAL KNIGHTS model within 6" of this unit. That friendly model regains up to D3 lost wounds.

BLESSED BY THE SACRISTANS

In your Command phase, you can select one friendly **IMPERIAL KNIGHTS** model within 6" of this unit. That friendly model regains up to 3 lost wounds.

KNIGHT OF THE COG

In your Command phase, you can select one friendly **IMPERIAL KNIGHTS** model within 6" of this unit. That friendly model regains up to D3+3 lost wounds.

Mastery of Execution

Freeblade pilots only

The death of a specific vilified foe may decide the outcome of a battle, or go some way to erasing a wrong the enemy once committed upon a Knight's honour. Some Noble champions see the singular destruction of such an enemy as their calling, a manifestation of their duty within the Code Chivalric.

HARBINGER

At the start of the first battle round, select one enemy unit. Until the end of the battle, each time this unit makes an attack that targets that enemy unit, add 1 to the Damage characteristic of that attack.

HEADSMAN

At the start of the first battle round, select one enemy unit. Until the end of the battle, each time this unit makes an attack that targets that enemy unit, add 1 to the Damage characteristic of that attack and that attack has the [SUSTAINED HITS 1] ability.

MASTER OF JUDGEMENT

At the start of the first battle round, select one enemy unit. Until the end of the battle, each time this unit makes an attack that targets that enemy unit, add 1 to the Damage characteristic of that attack and that attack has the [SUSTAINED HITS D3] ability.

AGENDAS

If your Crusade army includes any IMPERIAL KNIGHTS units, you can select Agendas from those presented here.

SALLY FORTH

The joys of battle are upon you, surging through your systems, firing your blood. With the Code Chivalric as your guide only glory awaits. For the honour of the household! Attack!

At the end of the battle, for each IMPERIAL KNIGHTS unit from your Crusade army wholly within your opponent's deployment zone, that **IMPERIAL KNIGHTS** unit gains 2XP. If three or more **IMPERIAL KNIGHTS** units from your Crusade army are wholly within your opponent's deployment zone, add 1 to the tally of your current Chivalric Quest.

BREAK THEIR WILL

Suffer not the enemy to live, for their existence is an offence to our oaths. They must be shown that to stand against Humanity is to invite the wrath of its colossal defenders.

At the end of the battle, if more than half of your opponent's units are destroyed or **Below Half-strength** and/or **Battle-shocked**, select up to three IMPERIAL KNIGHTS units from your Crusade army that are not destroyed; those units gain 2XP. If all of your opponent's units are destroyed or Below Half-strength and/or Battle-shocked, add 1 to the tally of your current Chivalric Quest.

PETITIONED FOR AID

Whether answering a call for aid from an Imperial commander on a campaign, responding to the distress call of some neighbouring world or setting off on a crusade, Noble houses will not be found wanting in their duty. They march to war with honour in their sights, reclaiming the Emperor's realm one adamantine footfall at a time.

At the start of the first battle round, your opponent must select one objective marker within No Man's Land. At the end of the battle, if you control that objective marker, select one IMPERIAL KNIGHTS unit from your Crusade army (excluding **Battle-shocked** units) that is within range of that objective marker: that unit gains 3XP, and if there are no enemy units within 6" of that objective marker, add 1 to the tally of your current Chivalric Quest.

HONOUR MUST BE SATISFIED

The Noble households do not forget those who have deeply wronged them, and the vengeance of their Nobles can only be tempered in the blood of the hated foe.

At the start of the first battle round, select one **MONSTER**, **VEHICLE** or **CHARACTER** unit from your opponent's Crusade army. At the end of the battle, if that unit was destroyed as the result of an attack made by an IMPERIAL KNIGHTS model from your Crusade army during the battle, that **IMPERIAL KNIGHTS** model gains 2XP. If, at the end of the third battle round, that enemy unit was destroyed as described above, add 1 to the tally of your current Chivalric Quest.

DEATH BEFORE DISHONOUR

Nothing tears at the noble heart so much as being anything less than dutiful. From such a nadir of self-doubt and with the disapproval of one's peers, only the most heroic feats can lift a worthy soul back to the heights of nobility.

You can only select this Agenda if your Crusade force is Dishonoured, or if one of more units from your Crusade army have a Burden. At the start of the first battle round, select one IMPERIAL KNIGHTS unit from your Crusade army. At the end of the battle, this Agenda is completed if one or more of the following apply to that **IMPERIAL KNIGHTS** unit:

- That unit destroyed three or more enemy units during the battle.
- That unit destroyed the enemy **WARLORD** during the battle.
- That unit is within range of one or more objective markers you control that are wholly within your opponent's deployment zone.

If this Agenda is completed, that **IMPERIAL KNIGHTS** unit gains 3XP and you can remove one Burden from that unit (if it has any). If that unit was your **WARLORD**, your Crusade force is no longer Dishonoured and you can swear your Knights to a new Chivalric Quest.

REQUISITIONS

If your Crusade force includes any IMPERIAL KNIGHTS units, you can spend Requisition points (RP) on any of the following Requisitions.

FAILURE IS NOT AN OPTION 2RP

With the success of an honourable quest hanging in the balance, abandonment of one's oaths is the last thing in the mind of the virtuous.

Purchase this Requisition after the third battle you have fought as part of a Chivalric Quest. Do not end that Chivalric Quest or resolve its rewards; instead, fight one more battle as part of that Chivalric Quest. After that fourth battle, that Chivalric Quest ends and you resolve its rewards.

LOYAL BONDSMAN 1RP

While most Armigers can operate independently, it is common for their Helms Mechanician to be neurally slaved to the command impulses of a larger Knight, rendering them subordinate. To accept such mental serfdom is to possess the rank of Bondsman.

Purchase this Requisition when mustering your Crusade army. Select one **ARMIGER** unit and one **QUESTORIS** unit from your Crusade army. Until the end of the battle, while both of those units are on the battlefield, that **ARMIGER** unit is always considered to be under the effect of that **QUESTORIS** unit's **Bondsman** ability.

HAND OF THE SACRISTAN 2RP

As the needs of the lance change, a Noble can petition the Sacristans who serve their needs to transplant their bonded neural interface - whether Throne or Helm - from one suitable steed to another.

Purchase this Requisition when you add a new **IMPERIAL KNIGHTS** unit to your Crusade force. Select one of your pilots with a Level of Honour that is Esteemed or Virtuous. That pilots assigned **IMPERIAL KNIGHTS** model becomes vacant, and a model in the new **IMPERIAL KNIGHTS** unit becomes that pilots assigned model. If the vacant **IMPERIAL KNIGHTS** model is an **ARMIGER**, the new **IMPERIAL KNIGHTS** unit must be an **ARMIGER** unit, or if your pilot has a Virtuous Level of Honour, the new **IMPERIAL KNIGHTS** unit must be a **TITANIC** unit. The new **IMPERIAL KNIGHTS** unit gains 6XP, and gains the Blooded rank.

OATH OF THE FREEBLADE 1RP

Some Knights forsake their houses to wander alone amongst the stars, or else are cast out as exiles. Such warriors are known as Freeblades and must carve out their path to glory.

When you purchase this Requisition, select one of your pilots with a Level of Honour that is Aspiring or higher. You can change that pilot's Sworn Alignment to Freeblade. In addition, you can replace their current Mastery with a new one (provided no other pilots from your Crusade force currently have that Mastery). That pilot retains its allocated Chivalric points. Then generate a Burden for that pilot.

AUTONOMY IN EXILE 1RP

The unique origins of those who take up the mantle of the Freeblade, the necessities of survival and the influence of those allies they pledge themselves to mean that many of these lone warriors acquire a breadth of experience denied to the more hidebound.

Purchase this Requisition when you select a Mastery for a pilot with the Freeblade Sworn Alignment. You can select any Mastery for that pilot, regardless of any Sworn Alignment restrictions (provided no other pilots from your Crusade force currently have that Mastery).

BATTLE SCARS AND BURDENS

Each time an Imperial Knights unit from your Crusade force gains a Battle Scar, roll one D6: on a 1-3, follow the main Crusade rules for gaining Battle Scars; on a 4-6, roll another D6. That unit's assigned pilot instead gains the relevant Burden from those listed in the table below. If this is a Burden that the pilot already has, roll again until it gains a Burden it does not already have. If a pilot has all three Burdens, they are killed in battle; remove that pilot from your Order of Battle and generate a new one.

Burdens D6

STAIN OF DISHONOUR

This Knight's failure is a deeply personal insult to those who live and die by the Code Chivalric, and their inclusion in the lance caused much politicalfriction before battle, and much time lost that should have been used in war preparations.

This unit cannot use or be affected by **Bondsman** abilities.

BONDED IN SHAME

Such is the magnitude of this pilot's failure that they have become a pariah in their own household. They are one failure away from being exiled in shame.

Subtract 2 from this unit's Objective Control characteristic and worsen its Leadership characteristic by 1.

DESPERATE FOR REDEMPTION

Losing a Knight in battle is matched with a loss of standing and respect within a pilot's household. Determined to regain their honour, they will reject no challenge, no matter how deadly.

This unit is not eligible to Fall Back.

CRUSADE RELICS

When an IMPERIAL KNIGHTS model gains a Crusade Relic, you can select one of the Crusade Relics presented here.

ARTIFICER RELICS

EQUERRY'S VOX

This vox-system was installed into the Knight of a trusted vassal to an aloof High Monarch, and so the Noble was able to command the lowly masses without having to sully his own Knight by getting too close to the low-born.

Each time the bearer uses its **Bondsman** ability, you can select one other friendly ARMIGER model within 9" of the ARMIGER you selected with that ability; that other model is also affected by that Bondsman ability.

OATHBREAKER GUIDANCE SYSTEM

The Noble houses suspected of harbouring this Dark Age augury protocol claim that the machine spirits of their secondary weapons can scent dishonour. Those who would hide behind their thralls are swiftly hunted out and punished for their cowardice.

If the bearer is equipped with one or more Questoris heavy stubbers or Questoris multi-lasers, those weapons have the [PRECISION] and [IGNORES COVER] abilities, and each time an attack is made with one of those weapons, you can re-roll the **Hit roll**.

HEART OF SOL

This fabled plasma reactor is thought to have been made from one of the original STC blueprints created in the Dark Age of Technology. It is capable of channelling the primal wrath of plasma fire, imbuing the Knight with immense, if temporary, bursts of power. Such surges of the Omnissiahs holy lifeblood invariably damage the Knight, but it is only through sacrifice that great deeds can be achieved.

In your Command phase, the bearer can activate this Crusade Relic. If it does, the bearer suffers D3 **mortal wounds**, then select one of the following effects (if you select the third effect, you must also select one weapon equipped by the bearer):

- Until the start of your next Command phase, add 2" to the bearer's Move characteristic.
- Until the start of your next Command phase, add 2 to **Advance** and **Charge rolls** made for the bearer.
- Until the start of your next Command phase, each time the bearer makes an attack with the selected weapon, add 1 to the **Wound roll**.

ANTIQUITY RELICS

SANCTUARY

Despite whispers of its uncertain origins, the potent ion shield generator known as Sanctuary is a venerated war relic. Through the projection of rapidly modulating and overlapping energy fields, coupled with an emission ofcleansing incense and a cycling barrage of data-hynmals, this device wards away the attacks of the enemy. The all-encompassing field clings to the Knight like an energised second skin, flexing and shifting with its movement and protecting it from even close-quarters attacks.

The bearer has a 5+ invulnerable save against melee attacks.

ARMOUR OF THE SAINTED ION

Tins carapace bodyglove is worn by the Knightly pilot. It is studded with electro-sockets that couple with the machinery of the Throne Mechanician. Once bonded, micro-generators within the armour project streams of ionic energy, not only wreathing the pilot and their Throne in a protective shield but reinforcing and protecting the Knight's internal systems.

The bearer has a Save characteristic of 2+.

LEGENDARY RELICS

HELM OF THE NAMELESS WARRIOR

Though many great heroes through the ages have mounted this face plate upon their Knight suits, the names of both the suit and the valiant pilot who first bore this helm have been lost to history. Regardless of its origins, the Helm of the Nameless Warrior has become synonymous with murderous ferocity in battle.

Melee weapons equipped by the bearer have the **[DEVASTATING WOUNDS]** ability.

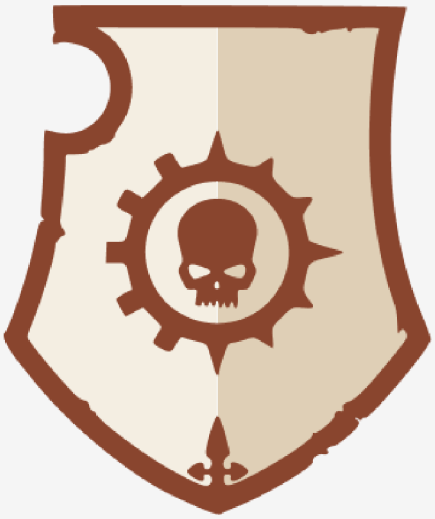

CRUSADE BADGES

When your Crusade force accomplishes specific long-term goals, you can earn the Crusade badges shown below, representing your warriors' successes over many battles.

CHIVALRIC CHAMPION

The legend of the warriors of your lance grows with each victory and valiant deed. Their names are known by the inhabitants of liberated hive cities, unshackled forge temples, freed orbital stations and cursed by those few foes that escape their wrath. Their time will come yet.

- You have completed one Chivalric Quest.
- You have won two or more battles.

CHIVALRIC PALADIN

You have upheld the Code Chivalric with glory, and the honour of you, your steed and your Noble companions is vaunted by millions of Imperial souls who inhabit the worlds you have stridden. The list of honours accrued by the warriors of your lance grows with each victory. Your crusade cannot stop now, duty demands it.

- You have completed two different Chivalric Quests.
- You have won five or more battles.
- Your Crusade force includes at least one pilot whose Level of Honour is Esteemed.

CHIVALRIC EXEMPLAR

The names of the warriors of your lance will live on in the myths and legends of a dozen star systems. The tally of foes slain and realms conquered in the name of those to whom you have sworn your undying oath of allegiance exceeds those of any other warrior to sit upon a Throne Mechanician. Your steeds machine spirit echoes your shout of victory!

- You have completed four different Chivalric Quests.
- You have won ten or more battles.
- Your Crusade force includes at least one pilot whose Level of Honour is Virtuous.
