Astra Militarum

The Astra Militarum are a blunt instrument of violence, wrought on a galactic scale. They serve both as a flesh-and-bone shield for the Emperor's realm, and as an unstoppable sledgehammer with which to crush its foes. There is precious little subtlety to their way of war, just the raw application of force, yet they have served the Imperium well for ten thousand years.

FAQ

ASTRA MILITARUM

Q: *If a unit becomes affected by the same Order multiple times, do those Orders affect that unit multiple times?*

A: No.

Q: *Can the Reinforcements! Stratagem be used on a unit that is **Battle-shocked**?*

A: No.

Q: *If a unit contains two models equipped with a vox-caster, can I attempt to generate 1CP twice when the bearer's unit is targeted with a **Stratagem**?*

A: No.

Q: *Can I attempt to generate 1CP from a unit containing a vox-caster, when targeting that unit with the Reinforcements! Stratagem?*

A: No.

Q: *When using the Creeping Barrage ability, how do you resolve the maximum number of units that can be shaken?*

A: You roll one D6 for each enemy unit that is more than 12" from every model from your army that is on the battlefield, in an order of your choosing, one at a time. Once the maximum number of enemy units for the battle size have been shaken, stop rolling for any additional units.

Q: *When an Ogryn Bodyguard joins a Militarum Tempestus Command Squad, can the unit set up using the **Deep Strike** ability?*

A: No, as the Ogryn Bodyguard model does not have the **Deep Strike** ability.

INTRODUCTION

Below you will find several **ASTRA MILITARUM** Detachments you can select from, as described in the Core Rules (see the Select Detachment Rules step). If you are playing a Crusade battle, see the equivalent step in the Mustering a Crusade Army section of the main Crusade rules. Each Detachment is a themed fighting force that focuses on one particular combat style employed by the Astra Militarum - the rules they include are as follows:

1 DETACHMENT RULE

The Detachment rule listed here will apply to either your whole army or to particular units within it. If any additional restrictions or benefits apply to a Detachment, they will be listed here.

2 ENHANCEMENTS

When mustering your army, your chosen Detachment enables you to upgrade **CHARACTERS** using the Enhancements listed here, as described in the Core Rules (see the Select Units step). If you are playing a Crusade battle, you can instead use the Renowned Heroes Requisition to give your **CHARACTERS** Enhancements, as described in the main Crusade rules.

3 STRATAGEMS

Your chosen Detachment gives you access to the Stratagems listed here in addition to the Core Stratagems listed in the Core Rules. During the battle, you can spend Command points (CP) to use these Stratagems. You can find out more about how to use Stratagems **here**.

ARMY RULES

VOICE OF COMMAND

Raised and trained to instil unwavering obedience, officers of the Imperial Guard command authority and respect, and issue orders with imperious bellows that cut through the clamour of war.

If your Army Faction is **ASTRA MILITARUM**, **OFFICER** models with this ability can issue Orders. Each **OFFICER**'s datasheet will specify how many Orders it can issue in a battle round and which units are eligible to receive those Orders. Each time an Officer model issues an Order, select one of the Orders below, then select one eligible friendly unit within 6" of that Officer model to issue it to.

OFFICER models can issue Orders in your Command phase and at the end of a phase in which they disembarked from a **TRANSPORT** or were set up on the battlefield.

Until the start of your next Command phase, the unit you selected is affected by that Order. Unless otherwise stated, a unit can only be affected by one Order at a time (any Order subsequently issued to that unit replaces the current one). Orders cannot be issued to **Battle-shocked** units, and if a unit being affected by an Order becomes Battle-shocked, that Order ceases to affect that unit.

Only **ASTRA MILITARUM** models gain the benefit of an Order issued to their unit.

DETACHMENT RULE

BORN SOLDIERS

Regiments of numerous origins and tactical roles inculcate their soldiers from an early age with the legendary doctrines of the Tactica Imperium. Infantry train in close-range fire patterns intended to decimate enemy soldiers, whilst tank crews spend countless hours practising to bring down enemy armour and rampaging monstrosities.

Each time a model in a REGIMENT unit from your army makes a ranged attack that targets a **visible** unit (excluding MONSTERS and VEHICLES), that attack has the [LETHAL HITS] ability.

Each time a model in a SQUADRON unit from your army makes a ranged attack that targets a visible MONSTER or VEHICLE unit, that attack has the [LETHAL HITS] ability.

ENHANCEMENTS

DEATH MASK OF OLLANIUS ..... 10 PTS

This mask depicts in obsidian and void-fired bronze the agonised visage of Saint Ollanius. Soldiers in the ancient artefacts presence are gifted the determination and endurance of the famous martyr himself.

OFFICER model only. While the bearer's unit is **Battle-shocked**, subtract 1 from the Objective Control characteristic of models in that unit, instead of changing it to 0.

DRILL COMMANDER ..... 20 PTS

This officer has spent countless hours putting their soldiers through ceaseless firing drills. In the heat of combat, the worth of this training reveals itself.

OFFICER model only. While the bearer is leading a unit, each time a model in that unit makes a ranged attack, if that unit **Remained Stationary** this turn, a Critical Hit is scored on a successful unmodified **Hit roll** of 5+.

GRAND STRATEGIST ..... 15 PTS

This commander can precisely anticipate the ebb and flow of war, their seemingly reactive tactics often prepared far in advance.

OFFICER model only. In your Command phase, the bearer can issue one additional Order.

REACTIVE COMMAND ..... 15 PTS

A natural tactician, this officer responds to their opponent's manoeuvres in swift and decisive fashion, never allowing the foe to dictate the battle.

OFFICER model only. Each time an enemy unit is set up within 8" of the bearer's unit, the bearer can issue one Order. This is not counted towards the number of Orders the bearer can issue in a battle round.

WHEN: Your Shooting phase.

TARGET: One REGIMENT unit and one SQUADRON unit from your army that have not been selected to shoot this phase.

EFFECT: Select one enemy unit. Until the end of the phase, each time your selected **REGIMENT** and **SQUADRON** units make an attack that targets that enemy unit, improve the Armour Penetration characteristic of that attack by 1.

DETACHMENT RULE

ARTILLERY SUPPORT

Artillery barrages lay the ground for the assault to come.

At the start of the battle round, select one of the following types of artillery support.

- **Creeping Barrage:** Roll one D6 for each enemy unit that is more than 12" from every model from your army that is on the battlefield: On a 5+, until the end of the battle round, that unit is shaken. While a unit is shaken, subtract 2" from its Move characteristic and subtract 2 from **Charge rolls** made for it. The maximum number of units that can be shaken by this rule in each battle round depends on the battle size, as shown below.
- **Incendiary Bombardment:** Select a number of enemy units more than 12" from every model from your army that is on the battlefield. EFFECT: Until the end of the phase, each time a model in your unit is destroyed, if that model has not fought this phase, roll one D6, adding 2 to the result if it is a REGIMENT model. STEEL HAMMER — 2DP

Whilst infantry forms the backbone of many Astra Militarum forces, heavy armour often serves as the mailed fist. Venerable battle tanks thunder across the battlefield, propelled by promethium-hungry engines, their steel tracks grinding a path across all but the most formidable obstacles. The largest mechanical monstrosities – commanded by veteran tank officers and aces – are true war behemoths: super-heavy vehicles shielded by reinforced armour and bristling with enough weapons to reduce enemy armies to smouldering ruin. With these ironclad giants at the fore, an Astra Militarum armoured spearhead crashes over trench lines under heavy fire, crushing infantry to bloody pulp beneath its tracks and reducing any armoured opposition to fragments of twisted scrap metal with roaring cannonades. Before such a tide of heavy metal fury, enemies are struck dumb with terror, their cover toppled or blasted to atoms, exposing them to the full wrath of the Emperor's steel hammer.

DETACHMENT RULE

CEASELESS CANNONADE

The heaviest Astra Militarum vehicles are adamantine behemoths whose armour is almost impenetrable. The crews of these colossal war engines need have no concern for the integrity of their vehicles, unleashing even the most violently destructive ordnance at point-blank range.

Each time an ASTRA MILITARUM TITANIC or ASTRA MILITARUM SQUADRON unit from your army is selected to shoot, models in that unit can target enemy units within **Engagement Range** of that unit (including with Blast weapons), provided no other friendly units are also within Engagement Range of that enemy unit. When doing so, such models do not suffer the penalty to their **Hit rolls** for being within Engagement Range of one or more enemy units (excluding attacks made with Indirect Fire weapons).

KEYWORDS

In the Muster Armies step, you can select one or more **ASTRA MILITARUM TITANIC** units from your army to gain the **CHARACTER** keyword.

EFFECT: Until the end of the phase, each time a model in your unit makes an attack, you can re-roll the **Hit roll**.

ARMOURED INFANTRY — 2DP

The rattle of tracks and the hammering of gunfire heralds the advance of armoured infantry. These forces are ideally suited to aggressively seizing strategic objectives, reinforcing buckling Imperial lines, responding to enemy attacks or capitalising on strategic gains. The combination of well-trained and equipped infantry with armoured transports is tried and tested. Transport vehicles lend their passengers speed and operational range far in excess of infantry operating on foot, provide protection on the way into battle, and offer fire support once the infantry have disembarked. In return, the troops can dig in, hold ground, and protect their transports from the enemy. Most often, the Astra Militarum deploys its armoured infantry elements at company strength. They either work hand in mailed gauntlet with tank formations or as massed assault elements which – when properly supported – can grind even the most elite foes into the dirt and secure the field for the armies of Mankind.

DETACHMENT RULE

SQUADRON COMMAND

Officers in charge of motorised formations are as well versed in armoured combat as in infantry operations.

Add SQUADRON to the list of units each OFFICER unit from your army can issue Orders to. Add the Order below to those listed in the Voice of Command ability.

- The number of battles your Crusade force will need to fight is D6+4.
- The number of victories your Crusade force will require is D3+2.

Once these goals have been determined, make a note of them on your Order of Battle. After each battle, reduce the number of battles that remain to be fought by 1 (to a minimum of 0), and if you won that battle, reduce the number of remaining victories required by 1 (to a minimum of 0).

Once both of these numbers reach 0, your Crusade force has completed that Tour of Duty, and you can spend Commendation points on your Crusade force. Once this stage is complete, your Crusade force can then begin a new Tour of Duty.

LOGISTICS POINTS

Each time your Crusade force starts a new Tour of Duty, after determining how many battles you need to fight and how many victories you require, you must assign your Crusade forces Logistics points for that Tour of Duty.

Logistics points represent the resources and assets that the Departmento Munitorum can bring to bear in support of your army, and they can be assigned to various categories, each granting potential surplus or deficiency effects, depending on what aspects of your Crusade forces Tour of Duty you wish to focus on.

LOGISTICS POINTS

Logistics points are presented as shown above.

COMMENDATION POINTS

At the end of each battle your Crusade force fights, it earns 1 Commendation point. If you won that battle, your Crusade force earns D3 Commendation points instead. Commendation points are used to award Personal Commendations to your units or Regimental Commendations to affect all **ASTRA MILITARUM** units in your Crusade force.

Additional Commendation points can be earned through the Agendas.

COMMENDATION POINTS

Commendation points are presented as shown above.

ASSIGNING LOGISTICS POINTS

Each time you begin a Tour of Duty, you have 4 Logistics points to assign. There are four Logistics categories to which these can be assigned:

Lexmechanicus: This category encompasses the communications infrastructure and planning resources that your Crusade force will have access to.

Materiel: This category represents how much ammunition and fuel you can call upon to replenish your army with.

Tithe Pool: This category covers how many fresh recruits you have access to - a crucial resource for replacing those lost in the meat grinder of the toughest battles.

Morale: This category relates to everything from access to inspiring propaganda to how many rations each soldier receives.

Your Logistics points can be assigned to each of these four categories in any combination you wish, but no category can have more than 2 Logistics points assigned to it.

Once you have finished assigning your Crusade forces Logistics points, you must determine in which categories your Crusade force has a surplus and in which it has a deficiency. This is based on how many Logistics points are assigned to that category, as shown below:

DEFICIENCY	0	LOGISTICS POINTS
NO EFFECT	1	LOGISTICS POINTS
SURPLUS	2	LOGISTICS POINTS

Categories in which your Crusade force has a surplus will reward your army with powerful bonuses in the battles ahead, while those where you have a deficiency will penalise your efforts. The effects of a surplus or deficiency in each category are shown on the right; these apply for as long as your Crusade force has that surplus or deficiency.

Make a note on your Order of Battle of which categories your Crusade force has a surplus or deficiency in (if any).

CATEGORY:

LEXMECHANICUS:

SURPLUS

When selecting Agendas for a battle, you can select one additional Astra Militarum Agenda to be active for that battle in addition to any others selected for that battle.

DEFICIENCY

Each time an **OFFICER** from your army issues an Order, roll one D6: on a 1, that Order is not issued.

CATEGORY:

MATERIEL:

SURPLUS

Each time an **ASTRA MILITARUM** unit from your army is selected to shoot, you can re-roll one **Hit roll** when resolving that units attacks.

DEFICIENCY

Subtract 2" from the Move characteristic of **ASTRA MILITARUM VEHICLE** models from your Crusade force.

CATEGORY:

TITHE POOL:

SURPLUS

In your Command phase, 1 destroyed model (excluding **CHARACTERS**) is returned to each **REGIMENT INFANTRY** unit from your army that is on the battlefield and not at its Starting Strength.

DEFICIENCY

In your Command phase, if your **WARLORD** is not on the battlefield, you do not gain a Command point.

CATEGORY:

MORALE:

SURPLUS

Improve the Leadership characteristic of **ASTRA MILITARUM** models in your Crusade force by 1.

DEFICIENCY

You cannot use the **Insane Bravery** Stratagem.

COMMENDATIONS

Each time your Crusade force completes a Tour of Duty, you can spend your Commendation points to upgrade your force with Commendations (any Commendation points not spent after this stage are lost). There are two types of Commendations: Personal Commendations, which are new Battle Honours bestowed upon individual **ASTRA MILITARUM** units in your Order of Battle and grant them new abilities, and Regimental Commendations, which can grant abilities to all **ASTRA MILITARUM** units in your Order of Battle. **EPIC HEROES** cannot be given Personal Commendations (but Regimental Commendations will apply to them while they are part of your Crusade force).

Each time a unit gains a Personal Commendation, that unit is treated as gaining a new Battle Honour. If that unit already has its maximum number of Battle Honours, you can choose to replace one with a Personal Commendation. An **OFFICER** unit cannot have more than 2 Personal Commendations and cannot have the same Personal Commendation more than once; other **ASTRA MILITARUM** units cannot have more than 1 Personal Commendation. At the end of a Tour of Duty, you cannot award the same Commendation more than once (but you can award those Commendations again at the end of another Tour of Duty).

If your Order of Battle has one or more Regimental Commendations, and you muster a Crusade army from it that includes one or more **ASTRA MILITARUM** units, the total Crusade points value of that Crusade army is increased by 3 for each Regimental Commendation you have. Your Order of Battle cannot have more than 2 Regimental Commendations, and it cannot have the same one more than once.

You can remove Commendations from your Order of Battle and/or from units in your Order of Battle at any time (in order to purchase new, different Commendations, for example).

PERSONAL COMMENDATIONS

This honour has been awarded for a wide variety of commendable actions. Shrewd planning; instinctive preparation of battlefield assets; intelligence gained through voluntary infiltration - all are deeds that sap the enemy's advantages at every turn.

After both players have deployed their armies, you can redeploy this unit. When doing so, this unit can be placed into **Strategic Reserves**, regardless of how many units are already in Strategic Reserves.

HONOURIFICA IMPERIALIS

2

This award is one of the highest honours that can be won by all the ranks in the Astra Militarum. It is issued only to those who demonstrate absolute loyalty in the face of terrible danger.

If an Order is issued to this unit, instead of applying until the start of your next Command phase, that Order will apply to it until the end of the battle, until a new Order is issued to it or until that unit becomes **Battle-shocked** (whichever happens first).

CELERIS HEART

2

This award is given to those who have shown the skill and initiative to outmanoeuvre their foes and seize their objectives.

REGIMENT unit only. Once per turn, when an enemy unit ends a **Normal**, **Advance** or **Fall Back move** within 9" of this unit, if this unit is not within **Engagement Range** of one or more enemy units, it can make a Normal move of up to D6".

AUXILA GOLDEN STAR

3

This award is granted to units who have shown great bravery in defence of a superior.

~~CAVALRY~~ or OGRYN unit only. You can target this unit with the **Heroic Intervention** Stratagem for 0CP, and can do so even if you have already used that Stratagem on a different unit this phase.

LAURELS OF PURITY

3

Presented alongside a circlet of silvered laurels, this honour recognises aggressive and forceful piety.

OFFICER or **MINISTORUM PRIEST** unit only. While the bearer is leading a unit, models in that unit have the **Feel No Pain 4+** ability against **Psychic Attacks**.

LORD COMMANDER'S SIGILUM

3

At the end of the battle, if this unit destroyed one or more enemy units during that battle, you gain 1 Commendation point.

MEDALLION RESOLUTE

3

While this unit is within range of an Objective marker that you control, models in this unit have a 5+ invulnerable save.

MEDAL OF LAUDABLE SERVICE

3

Only those whose regimental service is sufficiently lengthy are awarded this medal; their service denotes hugely varied campaigns alongside numerous other regiments, often resulting in a flexible approach to battle and the gaining of various additional battlefield skills.

At the start of every Tour of Duty, you can select one Battle Honour this unit has (excluding Personal Commendations), and replace it with a new Battle Honour of your choosing (excluding Personal Commendations).

OCULUS LAUREATE

4

Through keen observation, recognition of old foes or some tactical intuition, those who receive this medal have provided priceless information to senior command.

OFFICER unit only. If this unit is your **WARLORD**, you can use one Crusade Blessing even if you are not the Underdog.

AURAMITE AQUILA

5

Recognised for the unlikely number of actions they have served with distinction, these soldiers are scarred and aged by their experiences.

Unit with the Battle-hardened rank or higher only. This unit gains one Battle Trait of your choice. This must be a Battle Trait it can have, and does not count towards the maximum number of Battle Traits that a unit can have. If the Legendary Veterans Requisition is used on this unit, that Requisition only costs you 1RP.

REGIMENTAL COMMENDATIONS

EXPERT BOMBARDIERS

8

Skilled in coordinating their targeting with forward spotter elements, the artillery crews of this regiment are capable of devastating precision shelling.

While a unit from your Crusade army is under the effects of the Take Aim! Order, each time a model in that unit makes an attack with a Blast weapon, if a Critical Wound is scored, the improve the Armour Penetration characteristic of that attack by 1.

In addition:

- While you have a surplus in Morale, **ARTILLERY** units from your Crusade army gain 2XP from Dealers of Death instead of just 1XP.
- While you have a deficiency in Lexmechanicus, each time you gain a CP, roll one D6: on a 1, that CP is lost.

PARAGONS OF DRILL DISCIPLINE

This regiment's unyielding soldiers fight and die facing the enemy. Standing tall in ordered ranks, they unleash a devastating fusillade of las-fire.

While a unit in your Crusade army is under the effects of the First Rank, Fire! Second Rank, Fire! Order, if that unit **Remains Stationary**, its Rapid Fire weapons have the **[SUSTAINED HITS 1]** ability.

In addition:

- While you have a surplus in Materiel, each time an **ARTILLERY** unit from your Crusade army makes a ranged attack, re-roll a **Hit roll** of 1.
- While you have a deficiency in Tithe Pool, the cost to use the following Requisitions is increased by 1RP: Increase Supply Limit; Repair and Recuperate; Fresh Recruits.

VETERAN CREW

The crews of this regiment's war machines have been instructed in battlefield dominance and are skilled in using their iron steeds to scatter lesser enemies.

While a **SQUADRON** unit from your Crusade army is under the effects of the Duty and Honour! Order, ignore all Damaged effects that currently apply to that unit.

In addition:

- While you have a surplus in Materiel, add 3 to the Objective Control characteristic of **SQUADRON** models from your Crusade army.
- While you have a deficiency in Tithe Pool, each time an **ASTRA MILITARUM** unit from your Crusade army takes an Out of Action test, subtract 1 from the result.

VANGUARD HONOURS

The vehicle crews of this regiment are well-practised in high-speed manoeuvres, swiftly encircling enemy positions before breaking through their flanks with a roar of engines.

While a **SQUADRON** unit from your Crusade army is under the effects of the Move! Move! Move! Order, if that unit Advances, its ranged weapons have the **[ASSAULT]** ability.

In addition:

- While you have a surplus in Lexmechanicus, at the start of your Command phase, if one or more **SQUADRON** units from your Crusade army are wholly within your opponent's deployment zone, you gain 1CP.
- While you have a deficiency in Morale, each time you gain a Commendation point, roll one D6: on a 1, you lose 1 Commendation point.

PRESERVATION COMMENDATION

This regiment has earned accolades from high command due to their resilience, aptitude for armoured-vehicle tactics and propensity for preserving lives and recovering materiel from the field of battle.

While an **INFANTRY** unit in your Crusade army is under the effects of the Take Cover! Order, if that unit is within 3" of one or more friendly **TRANSPORT** models, each time a ranged attack targets that **INFANTRY** unit, models in that unit have the **Benefit of Cover** against that attack.

In addition:

- While you have a surplus in Tithe Pool, add 1 to the Wounds characteristic of **TRANSPORT** models in your Crusade force.
- While you have a deficiency in Lexmechanicus, if you are the Underdog, you can use 1 fewer Crusade Blessing and, if your opponent is the Underdog, they can use one extra Crusade Blessing.

MECHANISED ASSAULT MERIT

8

These infantry squads are as well-drilled as mechanised infantry, specialising in manoeuvres where they pile out of hatches swiftly and in good order - even as their transport is still moving. Their footing and aim is sure enough to fire a deadly volley.

While a **TRANSPORT** unit from your Crusade army is under the effects of the First Rank, Fire! Second Rank, Fire! Order, any units that disembark from that **TRANSPORT** are also considered to have had that Order issued to them that turn.

In addition:

- While you have a surplus in Morale, **REGIMENT** units from your Crusade army can disembark from **TRANSPORT** models even after that model has Advanced. Units that do so make a **shock disembark move** (Core Rules, 18.07) for that disembarkation.
- While you have a deficiency in Materiel, while a **TRANSPORT** model from your Crusade force is **Below Half-strength**, subtract 4" from its Move characteristic.

CAVALRY AQUILA

8

Adept infiltrators or swift vanguard skirmishers, this regiment's infantry range ahead of the front lines alongside swifter elements, tackling the enemy without warning and reporting observations to Imperial command.

While a **REGIMENT** unit in your Crusade army is under the effects of the Fix Bayonets! Order, melee weapons equipped by models in that unit have the **[PRECISION]** ability.

In addition:

- While you have a surplus in Tithe Pool, **REGIMENT** units in your Crusade army gain 2XP from Battle Experience instead of just 1XP.
- While you have a deficiency in Morale, at the end of the battle, unless you are the victor, you do not receive a Requisition point for playing a battle.

AGENDAS

If your Crusade army includes any **ASTRA MILITARUM** units, you can select Agendas from those presented here.

ADVANCE, FOR THE EMPEROR!

At full pace, and with the correct motivation, the grand armies of the Imperial Guard can overwhelm enemy positions by sheer weight of numbers.

At the end of the battle, select up to six **ASTRA MILITARUM** units from your army that are wholly within your opponent's deployment zone; each of those units earns 1XP. If your **WARLORD** is one of these units, your Crusade force also gains 1 Commendation point.

PROPAGANDA TARGETS

Amid long campaigns, the tireless Imperial propaganda machine demands visible and significant victories. The enemy's most brutal weapons of war must be ostentatiously humbled in order to give fresh hope to wearied soldiers.

At the start of the battle, your opponent must select three different units from their Crusade army to be Extermination Targets (if your opponent's army has fewer than three units, they select as many as possible). Each time an **ASTRA MILITARUM** unit from your Crusade army destroys an Extermination Target, that **ASTRA MILITARUM** unit gains 3XP. At the end of the battle, if all the Extermination Targets have been destroyed, your Crusade force also gains 1 Commendation point.

INSPIRED COMMAND

The central nervous system of the Astra Militarum is its command structure - those who efficiently coordinate their platoons with decisive and well-timed orders can clinch a lasting victory.

Each time a unit from your Crusade army destroys an enemy unit while being affected by an Order, the **OFFICER** that issued that Order gains 1XP (to a maximum of 3 per battle). At the end of the battle, if 5 or More **OFFICERS** from your Crusade army gained XP as the result of this agenda, your Crusade force also gains 1 Commendation point.

HOLD THE LINE

The battle lines have been drawn and your orders are clear. The enemy must not break through, no matter the cost to your forces in lives and materiel.

From the second battle round onwards, at the end of your turn, if there are no enemy units within your deployment zone and your **ASTRA MILITARUM WARLORD** is on the battlefield, that **WARLORD** gains 1XP. If, at the end of any of your turns, one or more enemy units are within your deployment zone, you cannot score any XP from this Agenda for the rest of the battle. If your **WARLORD** earns 4XP as the result of this Agenda in the battle, your Crusade force also gains 1 Commendation point.

ARMING THE ASSAULT

Air-dropped caches of arms and fuel are vital to maintaining assaults far from supply lines, but the sealed canisters must be cracked and emptied before the enemy can reach them.

At the start of the battle, all objective markers on the battlefield are Unsecured Munitions objectives and will remain so until secured.

At the start of your Shooting phase, one **ASTRA MILITARUM** unit from your Crusade army (excluding **Battle-shocked** units) that is within range of an Unsecured Munitions objective, is not within **Engagement Range** of any enemy units, and is eligible to shoot, can attempt to secure that Unsecured Munitions objective. If attempted, until the end of your turn, that unit is not eligible to shoot or declare a charge. At the end of your turn, if that unit is still within range of an Unsecured Munitions objective, that Unsecured Munitions objective is secured and that unit gains 2XP.

At the end of the battle, if you control all the objective markers in No Man's Land, and all of those objective markers have been secured, your Crusade force gains 1 additional Requisition point. At the end of the battle, if you control one or more objective markers in your opponent's deployment zone, and those objective markers have been secured, your Crusade force gains 1 Commendation point.

REQUISITIONS

If your Crusade army includes any **ASTRA MILITARUM** units, you can spend Requisition points (RP) on any of the following Requisitions.

DECORATED OFFICER 1RP

The regiment has been honed by a highly decorated and respected officer, who instils wisdom and discipline in the soldiers under their command.

Purchase this Requisition when you add an **OFFICER** unit (excluding **EPIC HEROES**) to your Order of Battle. That unit gains 6XP.

UPLIFTING PRIMERS 1RP

The Imperial Infantryman's Uplifting Primer can be requisitioned in bulk. It contains everything a Guardsman needs to effectively defeat the enemies of Mankind, and is a source of great comfort and inspiration to any loyal servant of the Emperor who can read.

Purchase this Requisition before the battle. Until the end of the battle, once per battle, you can target one **REGIMENT** unit from your army with the **Insane Bravery** Stratagem for 0CP (even if the Morale deficiency effect is currently applying to your Tour of Duty). In addition, at the end of the battle, every **REGIMENT** unit from your army that did not suffer a Devastating Blow gains 1XP.

COMMIT EVERYTHING 2RP

The campaigns senior commander has designated the upcoming battle as so vital that they will funnel all of their resources and assets into securing victory, forgoing frugal logistical management in favour of overwhelming force. Victory with these resources will need no explanation, and defeat will allow none.

Purchase this Requisition at the start of a Tour of Duty. You gain 1 additional Logistics point to use during that Tour of Duty, however, until this Tour of Duty ends, at the end of each battle, if you are not the victor of that battle, you lose 1 Commendation point (to a minimum of 0).

LAST-MINUTE TRANSFER 1RP

Skilled armoured crews and elite specialists are worth the resources needed to safely extract them from their current duties and reassign them. Such veterans can bring crucial skills to otherwise green formations.

Purchase this Requisition at any time. Select one **REGIMENT** unit from your Order of Battle and replace it with a new **REGIMENT** unit, or select one **SQUADRON** unit from your Order of Battle and replace it with a new **SQUADRON** unit. The newly added unit starts with the same Personal Commendations as the unit that it replaced (if any), it starts with the same number of XP as the unit it replaced, and immediately gains the appropriate number of Battle Honours for its rank. You cannot purchase this Requisition if doing so would cause your Crusade forces total points to exceed its Supply Limit.

ABOVE AND BEYOND THE CALL OF DUTY 1RP

The standards expected of an Astra Militarum soldier are high, yet there are those units whose achievements go far beyond those of their fellow fighters. On such occasions, the loftiest of commendations may be awarded, often presented to the recipients in person by a general or other high-ranking officer.

Purchase this Requisition at the end of a Tour of Duty, when you award a Personal Commendation to an **ASTRA MILITARUM** unit from your Crusade force. The Personal Commendation just awarded does not count towards the maximum number of Battle Honours that unit can have. You can only purchase this Requisition once per Tour of Duty and you cannot select the same unit for it more than once.

BATTLE TRAITS

When an **ASTRA MILITARUM** unit gains a Battle Trait, you can use one of the tables presented here to determine which Battle Trait that unit has gained.

INFANTRY AND ~~CAVALRY~~ UNITS — D6

Each time you take a Battle-shock, **Leadership** or Desperate Escape test for this unit, add 1 to that test.

GUERRILLAS

Guerrilla fighters are seasoned hit-and-run troops, outwitting their foes and disappearing suddenly after a lightning-fast ambush.

In your Shooting phase, after this unit has shot, if it is not within **Engagement Range** of one or more enemy units, it can make a **Normal move** of up to D6". If it does, until the end of the turn, this unit is not eligible to declare a charge unless it has the CAVALRY keyword.

TRENCH FIGHTERS

These soldiers have fought hard to bloody victory on numerous deadly battlefields, clearing out foes with blades, truncheons and bayonets.

Melee weapons equipped by models in this unit have the [LETHAL HITS] ability.

OFFICER UNITS D6

BOOMING VOICE

Every order given by this officer is bellowed to their troops with perfect clarity and at ear-splitting volume.

Each time this **OFFICER** issues an Order, you can select one eligible unit within 12" of that **OFFICER** model to issue it, to instead of within 6".

EYE FOR TALENT

Always on the lookout for aptitude, this officer moulds gifted troopers into elite warriors.

If this **OFFICER** is part of your Crusade army and was not destroyed during the battle, then at the end of the battle, select one additional unit to be Marked for Greatness (you cannot use this ability to select this **OFFICER**'s unit to be Marked for Greatness).

OLD GRUDGES

This officer has learnt their nemesis' weakness and will exploit it ruthlessly in a furry of orders to nearby troops, sealing their old enemy's doom with a storm off repower.

At the start of the battle, select one unit from your opponent's army. Each time a model in this **OFFICER**'s unit makes an attack that targets that unit, you can re-roll the **Hit roll**.

VEHICLE UNITS D6

URBAN FIGHTERS

Veterans of operating in confined environments, this crew are not fazed by engaging foes at point-blank range.

Each time a model in this unit makes a ranged attack, that model does not suffer the penalty to its **Hit rolls** for being within **Engagement Range** of one or more enemy units.

BIG-GAME HUNTERS

The numerous kill markings adorning this vehicle are a testament to its crew's talent.

Each time a model in this unit makes a ranged attack, if the target of that attack is a **MONSTER** or **VEHICLE** unit, you can re-roll **Hit rolls** of 1 and re-roll **Wound rolls** of 1.

WELL-DRILLED CREW

This vehicle's soldiers are experts in its handling - loaders, gunners and driver working like a well-oiled machine.

Ranged weapons equipped by models in this unit have the **[ASSAULT]** ability.

CRUSADE RELICS

When an **ASTRA MILITARUM CHARACTER** model gains a Crusade Relic, you can select one of the Relics presented here.

ARTIFICER RELICS

ICONIC ACCOUTREMENTS

Many heroes of the Astra Militarum bear weapons that are synonymous with their achievements. These items may include magnificent plumed caps, gilded bionics, treasured trench clubs or signature swagger sticks such as that once carried to war by General-Boyar Koledin, whose famed fortune was often attributed to it.

Once per turn, you can change either one **Hit roll**, one **Wound roll** or one saving throw made for the bearer's unit to a 6.

AQUILAN EYE

Fitted with a micro-cogitator, these relic magnoculars enable an officer to maintain an overview of each area of the battlefield, monitor the movement of enemy units and adjust the deployment of their assets accordingly.

OFFICER model only. In your Command phase, instead of issuing any Orders, the bearer can take a **Leadership test**. If it do, and that test is passed, you gain 1CP.

VOICE OF VON RHYNE

Ulis ancient laud-hailer, once borne by one General Von Rhyne - a veteran of the Sabbat Worlds Crusade - has become synonymous with victory. Orders, when bellowed through this device, seem louder and more forceful, inspiring resolve in those who hear them.

OFFICER model only. The bearer can issue one additional Order in your Command phase and each time the bearer issues an Order to a unit, that Order does not cease to apply if that unit fails a **Battle-shock test**.

ANTIQUITY RELICS

TACTICAL AUTO-RELIQUARY OF TYBERIUS

Built into the gold-chased skull of Lord Commander Lucellin Tyberius himself, this device houses a web of psycho-circuitry containing Tyberius' memory engrams and tactical acumen - and with it, his curmudgeonly and overbearing personality. Borne aloft by its own gravitic motors, the device observes and evaluates an officer's decisions. The moment it considers an order poorly chosen, the skull cuts into the vox-transmission and loudly overrides it.

INFANTRY OFFICER model only. The bearer can issue up to two Orders to REGIMENT units. While the bearer is leading a unit, that unit can be affected by up to two different Orders at the same time (without the most recent Order being replaced).

MAGALLIAN'S MANTLE

These advanced augmetic implants, crafted by the Tech-Priests of Triplex Phall, include ocular enhancers, spinal stimm injectors and cerebral interfaces that magnify the bearer's agility, resilience and visual acuity. Borne first by Lord Obscurus Magallian during his legendary campaigns against the awakened Necrons of the Novokh Dynasty, it was harvested from his partially atomised corpse after the battle of Kyloch XII. It has been implanted into many high-ranking commanders since. Those willing to subject themselves to the agonising implantation process believe that its mechanisms contain within their machine spirit lingering traces of the skills, experience and authority of its former bearers.

INFANTRY OFFICER model only. Improve the bearers Save, Wounds, Leadership and Objective Control characteristics by 1, improve the Weapon Skill and Ballistic Skill characteristics of the bearers weapons by 1, and improve the bearer's invulnerable save (if it has one) by 1 (to a maximum of 4+).

LEGENDARY RELICS

STAR OF TERRA

The Star of Terra is one of the highest decorations that can be awarded to a serving officer of the Imperial Guard. In addition to proclaiming the recipient's lofty status, it contains a powerful force field of ancient provenance.

INFANTRY OFFICER model only. Models in the bearer's unit have a 5+ invulnerable save, and each time an attack targets the bearer's unit, subtract 1 from the **Wound roll**.

CRUSADE BADGES

When your Crusade force accomplishes specific long-term goals, you can earn the Crusade badges shown below, representing your warriors' successes over many battles.

JUNIOR OFFICER

You have not only survived your first fifteen minutes of combat but endured an entire tour of duty. By your gifted command have the forces of the Astra Militarum achieved victories over xenos and heretic, defending the sanctity of the Imperium and earning glory for your regiment.

- You have completed one Tour of Duty.
- Three or more **ASTRA MILITARUM** units in your Crusade force have at least one Personal Commendation each.
- You have won two or more battles.

SENIOR OFFICER

BOARDING ACTIONS

INTRODUCTION

Within the following pages you will find numerous Boarding Actions Detachments that can be used in your Boarding Actions games. Each lists which units you can include in your army, any modifications to those units' army rule as presented in their Codex or Index, a Detachment rule unique to that Detachment, and a number of Enhancements and Stratagems that you can use.

ARMY FACTION

A keyword that will be shared by all units in your army.

MUSTERING RULES

Which units you are allowed to include in your army.

FORMING BOARDING SQUADS

Any additional rules that will apply in the missions Form Boarding Squads step. Note that not all Detachments will have these.

RULES ADAPTATIONS

Some units will be unable to use certain abilities in Boarding Actions battles. Where this is the case, these units and their relevant abilities will be listed here.

ARMY RULE

Due to the distinct nature of close-quarters battle in Boarding Actions, most army rules require some modifications to their effects. Where this is the case, these will be described here.

DETACHMENT RULE

Each faction will have a number of different Detachments to choose from, each with its own Detachment rule to reflect the unique fighting methods of such forces.

ENHANCEMENTS

Further Enhancements that you can give to **CHARACTER** models from your army, beyond those(Boarding Actions Enhancments), will be found here.

STRATAGEMS

Additional Stratagems that you can use, in addition to those (Boarding Actions Stratagems), will be found here.

EMBARKED REGIMENT

Astra Militarum regiments spend months, even years, travelling aboard voidships between war zones. Many fortify their billets during such long periods of inactivity, whether against the danger of hostile boarders, or to hide illicit activities from prying discipline masters!

CADIAN CASTELLAN
CADIAN COMMAND SQUAD
GAUNT'S GHOSTS
'IRON HAND' STRAKEN
PLATOON COMMAND SQUAD

  - CADIAN SHOCKTROOPS
  - CATACHAN JUNGLE FIGHTERS

ARMY RULE

Direct Orders

Amidst the point-blank mayhem of shipboard battle, officers often find themselves directing scratch formations of hastily rallied soldiery.

Units from your army with the Voice of Command ability retain that ability and gain this one.

Each time an **OFFICER** model in this unit issues an Order, that Order can be issued to any one friendly **ASTRA MILITARUM** unit within range, regardless of any keywords that unit is normally required to have.

DETACHMENT RULE

Get Down!

At a shouted command from their superiors, Imperial Guardsmen throw themselves flat to the decks, allowing the ranks behind to fire over their heads.

Each time an **ASTRA MILITARUM** unit from your army is selected to shoot, you can select one other friendly **ASTRA MILITARUM** unit (excluding **OGRYN** units). Until the end of the phase, models in the attacking unit can ignore models in that friendly unit for the purposes of determining visibility.

ENHANCEMENTS

RIGGED BLIND GRENADES

Whether intending to defend some contraband stash or as a precaution to slow down enemy boarding parties, the Imperial Guardsmen have booby trapped this hatch with a bundle of blind grenades.

Once per battle, when an enemy unit opens a Hatchway, if the bearer is on the battlefield, it can use this Enhancement. If it does, roll one D6: on a 2+, that enemy unit is **Battle-shocked**.

SHIPBOARD VETERAN

This officer has coordinated more than their fair share of boarding actions and voidship defence actions, and knows precisely which strategic gambits will bring them victory in such conditions.

Each time you target an **ASTRA MILITARUM** unit from your army with a Stratagem, if that unit is visible to the bearer, roll one D6: on a 4+, you gain 1CP.

STRATAGEMS

AGAINST THE ODDS — 1CP

EMBARKED REGIMENT – BATTLE TACTIC STRATAGEM

Imperial Guardsmen faced by nightmarish foes in the close quarters of a boarding action may be driven to fight as never before to survive.

WHEN: Your Shooting phase or the Fight phase.

TARGET: One **ASTRA MILITARUM** unit from your army (excluding **OGRYN** units) that has not been selected to shoot or fight this phase.

EFFECT: Until the end of the phase, each time a model in your unit makes an attack, on a Critical Wound, improve the Armour Penetration characteristic of that attack by 2.

DUCK AND COVER — 1CP

EMBARKED REGIMENT – BATTLE TACTIC STRATAGEM

Between training and the Human instinct for self-preservation, these soldiers manage to make the most of the available cover.

WHEN: Your opponent's Shooting phase or the Fight phase, just after an enemy unit has selected its targets.

TARGET: One **ASTRA MILITARUM** unit from your army (excluding **OGRYN** units) that was selected as the target of one or more of the attacking unit's attacks and has one or more models on the opposite side of an open Hatchway from one or more models in the attacking unit.

EFFECT: Until the end of the phase, each time an attack targets your unit, subtract 1 from the **Hit roll**.

IDLE HANDS — 1CP

EMBARKED REGIMENT – STRATEGIC PLOY STRATAGEM

Spending a long time stuck in one section of a voidship leads bored soldiers to explore their surroundings and discover useful shortcuts in case of emergency.

WHEN: Your Movement phase.

TARGET: One **ASTRA MILITARUM** unit from your army that has not been selected to move this phase and is not within Engagement Range of one or more enemy units.

EFFECT: Select one closed Hatchway within 1" of your unit. Your unit can operate that Hatchway.

RESTRICTIONS: Until the end of the turn, your unit cannot operate a Hatchway again.

BRUTAL CHOKE POINT

1CP

EMBARKED REGIMENT – STRATEGIC PLOY STRATAGEM

The Tactica Imperialis teaches well how to exploit choke points to slaughter the foe. Its lessons transfer well to voidship corridors and chambers.

WHEN: Your opponent's Movement or Charge phase.

TARGET: One **ASTRA MILITARUM** unit from your army (excluding **OGRYN** units) that has not fired Overwatch this phase.

EFFECT: Until the end of the phase, each time a model in your unit makes an attack while firing Overwatch, an unmodified **Hit roll** of 5+ is required to score a hit, instead of an unmodified 6.

TEMPESTUS BOARDING REGIMENT

The Militarum Tempestus excel in high-intensity, fast-moving raids. Some of their regiments further refine these specialisms towards the boarding of voidships, storming vital locations to seize and scuttle the vessel or extract vital personnel from the foe's clutches.

MUSTERING A BOARDING PATROL

You can include up to one of the following unit:
MILITARUM TEMPESTUS COMMAND SQUAD
You can include up to one of the following units:
COMMISSAR
OGRYN BODYGUARD
PRIMARIS PSYKER
~~**REGIMENTAL ENGINSEER**~~
~~**REGIMENTAL PREACHER**~~
You can include up to three of the following unit:
TEMPESTUS SCIONS (5 or 10 models)
You can include up to one of the following unit:
BULLGRYN SQUAD (3 models)

FORMING BOARDING SQUADS

In the Form Boarding Squads step, you must attach a **LOYAL PROTECTOR** model to a **COMMAND SQUAD** unit as specified in its Loyal Protector rule.

RULES ADAPTATIONS

- **TEMPESTUS SCIONS** units can perform the Secure Site Tactical Manoeuvre as if they had the **BATTLELINE** keyword.
- The **MILITARUM TEMPESTUS** unit loses the Deep Strike ability.

ARMY RULE

Direct Orders

Amidst the point-blank mayhem of shipboard battle, officers often find themselves directing scratch formations of hastily rallied soldiery.

Units from your army with the Voice of Command ability retain that ability and gain this one.

Each time an **OFFICER** model in this unit issues an Order, that Order can be issued to any one friendly **ASTRA MILITARUM** unit within range, regardless of any keywords that unit is normally required to have.

DETACHMENT RULE

Purge-Sweep Protocols

Tempestus Scions are drilled to progress through voidships chamber by chamber, corridor by corridor, clearing each with blitzing firepower before sweeping on to the next.

Each time a **MILITARUM TEMPESTUS** unit from your army is selected to shoot, if one or more models in that unit are within 1" of an open Hatchway and every model in that unit is on the same side of that Hatchway, select one enemy unit on the opposite side of that Hatchway from that unit. Until the end of the phase, ranged weapons equipped by models in that unit have the **[LETHAL HITS]** ability while targeting that enemy unit.

ENHANCEMENTS

COVERT BREACH

Moving with stealth and urgency, these Scions have already bypassed the enemy's outer defences before their presence is even detected.

At the start of the first battle round, the bearer's unit can make a **Normal move** of up to 6".

ELIMINATION FORCE

Tasked with the destruction of a specific enemy asset, the Tempestus Scions focus their most lethal attentions against it as per their explicit orders.

At the start of the first battle round, select one enemy unit. Each time a model in the bearer's unit makes an attack that targets that enemy unit, if the Strength characteristic of that attack is less than the Toughness characteristic of that enemy unit, add 1 to the **Wound roll**.

STRATAGEMS

BRUTAL TRAINING — 1CP

TEMPESTUS BOARDING REGIMENT – BATTLE TACTIC STRATAGEM

Tempestus Scions are trained in a range of specialist hand-to-hand combat techniques. Coupled with combat stimms, these make them bruising foes.

WHEN: Fight phase.

TARGET: One MILITARUM TEMPESTUS unit from your army that has not been selected to fight this phase.

EFFECT: Until the end of the phase, add 1 to the Attacks and Strength characteristics of melee weapons equipped by models in your unit.

COORDINATED STRIKE — 1CP

TEMPESTUS BOARDING REGIMENT – STRATEGIC PLOY STRATAGEM

Employing coordinated helm chronos, the Scions execute a pre-arranged simultaneous tactical manoeuvre.

WHEN: Start of your Command phase.

TARGET: One OFFICER model from your army.

EFFECT: Select one Order your model can issue. Every **ASTRA MILITARUM** unit from your army is issued that Order (regardless of any keywords those units are normally required to have).

RESTRICTIONS: Until the end of the turn, **OFFICER** models from your army cannot issue Orders. You can only use this Stratagem once.

LOCKDOWN — 1CP

TEMPESTUS BOARDING REGIMENT – STRATEGIC PLOY STRATAGEM

Voidborne Scions are trained to swiftly goad the machine spirits of bulkheads and hatches, slamming them shut in their wake to trap the foe.

WHEN: Your Movement phase.

TARGET: One **ASTRA MILITARUM** unit from your army that has not been selected to move this phase.

EFFECT: Until the end of the phase, after your unit ends a move, you can select one open Hatchway it moved through during that move; close that Hatchway.

FIRE-PATTERN HURRICANUS

1CP

TEMPESTUS BOARDING REGIMENT – BATTLE TACTIC STRATAGEM

Emptying the magazines of their weapons in an indiscriminate hail of fire, the Scions create a zone of lethality that foes will struggle to advance into.

WHEN: Your Shooting phase, just after a MILITARUM TEMPESTUS unit from your army has shot.

TARGET: That MILITARUM TEMPESTUS unit.

EFFECT: Select one enemy unit hit by one or more of those attacks. Until the start of your next Shooting phase, subtract 2 from the Move characteristic of models in that enemy unit, and subtract 2 from **Advance** and **Charge rolls** made for it.

HERO OF HADES HIVE

Counterstrategist: At the end of your opponent's Movement phase, you can select one enemy unit that was set up or ended a move within 8" of this model, and one friendly REGIMENT unit within 6" of and **visible** to this model that has not made a **Normal move** or been targeted with the **Fire Overwatch** Stratagem this phase. That REGIMENT unit can then either:

- Make a Normal move of up to D6".
- Shoot at that enemy unit, but only if it is an eligible target. Until the end of the phase, each time a model in that unit makes a ranged attack, an unmodified **Hit roll** of 6 is required to score a hit, irrespective of the attacking weapon's Ballistic Skill or any modifiers.
- Declare a charge. That REGIMENT unit must end that **charge move engaged** with the enemy unit you selected (note that even if this charge is successful, the charging unit does not receive any Charge bonus this turn).

Decisive Command: The next Order issued by this model can be issued to one eligible friendly unit within 12" of this model; if this is the first Order issued by a unit from your army this Command phase, that Order affects not only that eligible unit, but every other eligible friendly unit within 6" of that eligible unit.

Inspiring Hero (Aura): While a friendly ASTRA MILITARUM unit is within 6" of this model, you can re-roll Battle-shock and **Leadership tests** taken for that unit.

LOYAL PROTECTOR

At the start of the Declare Battle Formations step, this model must join one COMMAND SQUAD unit from your army (a COMMAND SQUAD cannot have more than one LOYAL PROTECTOR model joined to it). This model then counts as part of that COMMAND SQUAD for the rest of the battle, and its Starting Strength is increased accordingly. If it is not possible to join this model to a COMMAND SQUAD, it does not take part in the battle and counts as having been destroyed.

While this model is joined to a unit, it can embark within any TRANSPORT that unit can embark within, and takes up the space of 3 models.

This model cannot be selected as your WARLORD.

ABILITIES

Independent Operatives: Each time an Order is issued to this unit, that Order affects this unit until a new Order is issued to this unit, or until this unit becomes **Battle-shocked**, or until the battle ends (whichever happens first).

Vox-caster: Each time you target the bearer's unit with a Stratagem, roll one D6, adding 1 to the result if there are one or more friendly OFFICER models within 6": on a 5+, you gain 1CP.

Vox-relay Beacon: At the start of the battle, you can set up one Vox-relay Beacon token for this unit anywhere on the battlefield that is not in your opponent's deployment zone. While a friendly ASTRA MILITARUM REGIMENT unit is within 6" of that token, OFFICER units from your army can issue orders to that REGIMENT unit as if the OFFICER unit was within 6" of it. At the end of every phase, If an enemy unit is within 1" of a Vox-relay Beacon token you set up, that token is removed from the battlefield.

WARGEAR OPTIONS

ABILITIES

Emplacement Platform: Friendly ASTRA MILITARUM INFANTRY models can be set up or end any type of move on top of the platform section of this FORTIFICATION.

Reinforced Cover: Each time a ranged attack is allocated to a model, if that model is not fully **visible** to every model in the attacking unit because of this FORTIFICATION, that model has the **Benefit of Cover** against that attack.

Defence Line: While an ASTRA MILITARUM INFANTRY model has the **Benefit of Cover** as a result of this **terrain feature** (see above), that model has a 4+ invulnerable save.

Fortification: While an enemy unit is only within **Engagement Range** of one or more FORTIFICATIONS from your army:

- That unit can still be selected as the target of ranged attacks, but each time such an attack is made, unless it is made with a Pistol, subtract 1 from the **Hit roll**.
- Models in that unit do not need to take Desperate Escape tests due to Falling Back while **Battle-shocked**, except for those that will move over enemy models when doing so.

UNIT COMPOSITION

- 1 Aegis Defence Line

YOUR UNIT COSTS

1 model 145

DEPLOYMENT

When this model is set up, it will consist of 1 platform section, up to 5 shield sections, up to 2 broken shield sections, and up to 2 end sections. All sections must be connected to each other to form a continuous defence line; the two broken shield sections can be placed either at the end of the defence line, or in the middle of it such that both are within ½" of each other (in this case, these two sections count as being connected to each other). All the sections that have been set up are then treated as a single model for all rules purposes.
